HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **enterprise-grade automations** using **Tungsten Automation** and **UiPath**, translating complex business processes into secure and maintainable technical solutions.
- Embedded **AI capabilities** into automation workflows for intelligent document classification, extraction, and validation, enhancing processing accuracy by **18%**.
- Developed and deployed **agentic orchestration** solutions, including agent coordination, task decomposition, and tool use, to streamline multi-agent workflows.
- Owned the end-to-end technical lifecycle of an automation platform, defining and enforcing **platform guardrails**, development standards, and operational procedures.
- Mentored junior developers on best practices for **workflow automation** and **robotic process automation**, improving code quality and delivery consistency.
- Ensured automation solutions complied with **information security**, **data protection**, and **model governance** requirements within a regulated financial-services environment.
- Containerised automation services with **Docker** and deployed them to a cloud environment, managing CI/CD pipelines with **Jenkins** for consistent releases.

SKILLS

Automation Platforms – Tungsten Automation, UiPath, Microsoft Power Platform

AI & ML – Intelligent Document Processing, Knowledge Discovery, Content Generation, Agentic Orchestration, Human-in-the-Loop Controls

Programming & Scripting – Python, Java, SQL

Cloud & DevOps – AWS, Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – REST APIs, Agile, Scrum, Jira, Confluence

PROJECTS

AI-Powered Document Processing Automation

- Engineered a Python-based automation solution to classify and extract data from financial documents, achieving **92% accuracy** in identifying key fields.
- Integrated an **NLP model** fine-tuned for document summarisation, reducing manual review time for compliance reports by approximately **20%**.
- Developed reusable components for **document extraction** and validation, enabling faster deployment of similar automations for other business units.

Enterprise Automation Platform Enhancement

- Designed and implemented a standardized framework for **API integrations** within the automation platform, facilitating seamless data exchange between systems.
- Developed **Python scripts** for automated testing and deployment of automation workflows, reducing manual deployment effort by **40%**.
- Contributed to the platform's architecture by defining patterns for error handling and resilience, ensuring higher availability for automated processes.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
