PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained C#/.NET Core microservices for the Sales & Trading middleware, enhancing data transfer and processing capabilities across front, middle, and back-office systems.
- Designed and implemented RESTful APIs using C# and ASP.NET Core, ensuring seamless integration with various enterprise platforms and supporting business-critical workflows.
- Wrote complex SQL queries and stored procedures against MS SQL Server for data extraction, transformation, and loading, supporting reporting and analytics needs for the middleware team.
- Participated in agile ceremonies, including sprint planning and daily stand-ups, contributing to the team's delivery of mission-critical projects and BAU requests.
- Collaborated with business analysts and product owners to translate functional requirements into technical specifications for new feature development and system enhancements.
- Debugged and resolved production issues in a high-availability environment, performing root cause analysis and implementing robust solutions to maintain system stability.
- Containerized C# applications using **Docker** and orchestrated deployments on **AWS ECS**, improving application portability and simplifying the deployment pipeline.

SKILLS

Programming Languages – C#, .NET Core, SQL, Python, Java

Databases – MS SQL Server, PostgreSQL, MySQL, Oracle

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch, ECS)

Development Tools – .NET Framework, ASP.NET Core, Docker, Git, Jenkins, Jira, Confluence

Methodologies – Agile, Scrum, CI/CD

Domain Knowledge – Sales & Trading Systems, Middleware, Data Transfer & Processing, Financial Services

PROJECTS

C# Middleware Data Orchestration Service

- Engineered a C#/.NET Core service to manage and orchestrate data flow between disparate financial systems, processing an average of 5,000 messages per hour.
- Implemented robust error handling and retry mechanisms for message processing, reducing data loss incidents by approximately **15%**.
- Integrated the service with **MS SQL Server** for persistent storage of transaction logs and audit trails, ensuring data integrity and compliance.

Automated C# Application Deployment Pipeline

- Developed a CI/CD pipeline using **Jenkins** and **Docker** to automate the build, testing, and deployment of C#/.NET applications to **AWS ECS**.
- Configured build agents and managed artifact repositories, reducing manual deployment time by an average of **40%**.
- Implemented basic health checks and monitoring within the deployment process to ensure successful rollouts to production environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
