HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Investigated live production incidents across enterprise applications, APIs, and interconnected systems, performing root cause analysis using logs and monitoring tools.
- Wrote complex **SQL queries** to diagnose data discrepancies, validate transaction records, and troubleshoot issues within relational databases.
- Used **Postman** to construct and send API requests, meticulously inspecting responses to identify and resolve integration failures between backend services.
- Supported critical **ERP workflows**, investigating and resolving issues related to orders, stock management, and purchasing processes impacting daily operations.
- Collaborated with development teams, internal IT, and external vendors to efficiently resolve escalated technical problems and ensure service restoration.
- Documented incident findings, root causes, and resolution steps to build a knowledge base for ongoing application support and maintenance.
- Managed the lifecycle of production incidents, taking ownership from initial report through to successful resolution and user confirmation.

SKILLS

Core Technologies – SQL, APIs, REST, SOAP, Postman, Linux, Shell Scripting

Databases – PostgreSQL, MySQL, Oracle

Enterprise Systems – ERP, SAP, Oracle, Microsoft Dynamics

Monitoring & Logging – Splunk, CloudWatch, Dynatrace

Programming & Scripting – Java, Spring Boot, Python

Cloud & Containerization – AWS, EC2, S3, Lambda, Docker

Methodologies – Agile, Scrum, Incident Management

PROJECTS

Enterprise Application Integration Support (HCL Technologies)

- Provided production support for a suite of enterprise applications and their integrations, focusing on transaction tracing across systems to pinpoint failure points.
- Developed and executed **SQL queries** against PostgreSQL and Oracle databases to validate data integrity and troubleshoot discrepancies in business-critical workflows.
- Analyzed application logs and monitoring alerts from **Splunk** and **CloudWatch** to identify root causes of performance degradation and transaction failures.

ERP System Data Reconciliation Tool (HCL Technologies)

- Automated data reconciliation processes between ERP modules and downstream financial systems using **Python** scripting, reducing manual effort by approximately **40%**.
- Designed and implemented RESTful APIs using **Java Spring Boot** to facilitate data exchange and integration checks between disparate enterprise platforms.
- Managed system configuration changes and coordinated User Acceptance Testing (UAT) for ERP updates, ensuring seamless post-go-live support.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
