HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and built scalable solutions using **Power Apps**, **Power Automate**, and **Dataverse** for a regulated financial environment, managing the full solution lifecycle.
- Migrated three lower-risk legacy applications onto the Microsoft Power Platform, translating business requirements into maintainable and secure solutions.
- Developed and maintained **custom connectors** to integrate Power Platform solutions with internal and external systems, including **APIs**.
- Implemented and supported application releases using **Azure DevOps** pipelines and **Power Platform ALM**, adhering to Git-based source control standards.
- Developed **JavaScript** components for model-driven applications to enhance user experience and implement custom business logic.
- Designed and optimized **SQL Server** database schemas and wrote **T-SQL queries** to support application data requirements.
- Applied security and governance best practices across all solutions, ensuring compliance with regulated environment standards and preparing technical documentation.

SKILLS

Microsoft Power Platform – Power Apps, Power Automate, Dataverse, Power Platform ALM, Custom Connectors

Development Languages – JavaScript, TypeScript, C#

Database Technologies – SQL Server, T-SQL

DevOps & Cloud – Azure DevOps, Git, Microsoft Azure, Entra ID

Integration – APIs, Microsoft 365

Methodologies – Agile, Scrum

PROJECTS

Financial Services Application Modernisation (Power Platform)

- Led the migration of a critical internal reporting application from a legacy system to **Power Apps** and **Power Automate**, improving data access efficiency for the operations team.
- Designed and implemented a **Dataverse** data model to support the new application, ensuring data integrity and scalability for future enhancements.
- Collaborated with business stakeholders to gather requirements and validate the solution through UAT, ensuring alignment with operational needs within the regulated environment.

Automated Reconciliation Workflow (Power Automate & SQL)

- Developed an automated reconciliation workflow using **Power Automate** to process daily transaction data extracts from a **SQL Server** database.
- Engineered **T-SQL scripts** to perform data validation and flag discrepancies, reducing manual reconciliation effort by approximately 40%.
- Integrated the workflow with a **custom connector** to trigger notifications and update status in a central tracking system.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
