PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Drove supplier quality performance for critical commodities by analyzing **performance data** and identifying trends, leading to the implementation of proactive improvement actions.
- Led supplier qualification and approval activities for new and existing suppliers, including detailed **risk assessment** and compliance evaluations against quality standards.
- Advanced supplier capability through targeted development initiatives, focusing on enhancing quality, performance, and overall **risk reduction** across key supplier relationships.
- Resolved complex supplier quality issues by overseeing **SCARs (Supplier Corrective Action Requests)**, validating root cause effectiveness, and escalating as necessary.
- Supported new product introductions and design transfers by ensuring robust supplier quality and process readiness, collaborating with cross-functional teams.
- Oversaw supplier-related quality activities including **quality planning**, performance reviews, and integration into the company's quality system.
- Analyzed **manufacturing environment data** to identify process deviations and implemented corrective actions, ensuring product quality and compliance with **ISO 13485**.

SKILLS

Quality Engineering – Supplier Qualification, Risk Management, Audits, Continuous Improvement, SCARs, Root Cause Analysis, Quality Planning, Performance Reviews, New Product Introduction Support, Design Transfer Support

Regulatory Compliance – 21 CFR 820, ISO 13485, ISO 9001, Supplier Controls

Technical Skills – Statistical Techniques, Data Analysis, Minitab, Excel, PowerPoint, SharePoint

Process Improvement – Problem-Solving Methodologies, Data-Driven Decision-Making, Facilitation

Core Technologies – Java, Spring Boot, Python, SQL, AWS, Docker, Linux, Git, Jenkins, Jira, Confluence, PostgreSQL, MySQL, Oracle, Splunk, Dynatrace, Power BI, Tableau

PROJECTS

Supplier Quality Improvement Initiative (HCL Technologies)

- Analyzed historical supplier performance data for a financial-services client, identifying key areas for quality improvement across **multiple commodities**.
- Developed and implemented a new supplier performance scorecard system using **Python scripting**, which provided clearer visibility into quality metrics and led to a **15% reduction** in critical defects.
- Collaborated with operations and business analysts to define requirements for enhanced transaction monitoring dashboards, improving **SLA adherence** for payment processing.

Enterprise System Integration & Data Quality (HCL Technologies)

- Supported integration efforts between ERP modules and operational platforms, focusing on data consistency across **PostgreSQL** and **Oracle** databases.
- Automated data validation checks using **SQL queries** and Python scripts, reducing manual data reconciliation efforts by approximately **20%** for batch reporting.
- Managed change control processes for system configuration updates, coordinating UAT and post-go-live support for interconnected enterprise systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
