PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed supplier qualification and approval processes, including detailed risk assessments and compliance evaluations for over **15 new suppliers** across diverse commodities.
- Drove resolution of complex supplier quality issues by leading root cause analysis and overseeing the effectiveness of Corrective and Preventive Actions (CAPA), successfully closing **~90% of escalated SCARs** within target timelines.
- Supported new product introductions and design transfers by collaborating with cross-functional teams to ensure robust supplier quality readiness and process validation.
- Analyzed supplier performance data using **Excel and Minitab**, identifying trends and implementing proactive improvement initiatives that reduced non-conformance rates by **18%** for critical components.
- Oversaw supplier-related quality activities, including conducting **on-site audits** and performance reviews, ensuring adherence to quality standards and company policies.
- Mentored junior team members on problem-solving methodologies and effective technical writing for quality documentation, improving team output by approximately **10%**.
- Containerized supplier quality management tools using **Docker** and deployed them to an **AWS EC2** environment, ensuring consistent access and performance for the quality team.

SKILLS

Quality Engineering – Supplier Qualification, Risk Assessment, Auditing, Root Cause Analysis, CAPA, SCAR, New Product Introduction, Design Transfer, Supplier Performance Management, Quality System Compliance, Regulatory Compliance

Tools & Software – Minitab, Excel, PowerPoint, SharePoint, Jira, Confluence, Docker, AWS EC2

Methodologies – ISO 13485, ISO 9001, 21 CFR 820, Statistical Process Control (SPC), Lean Principles, Agile Methodologies

Data Analysis – Data Analysis, Trend Analysis, Performance Data Analysis, Problem-Solving

Communication – Technical Writing, Cross-functional Collaboration, Mentoring, Stakeholder Communication

PROJECTS

Supplier Risk Management Framework Development

- Designed and implemented a comprehensive supplier risk management framework, categorizing suppliers based on criticality and compliance requirements, impacting over **50 active suppliers**.
- Developed standardized audit checklists and risk assessment templates in **SharePoint**, improving consistency and reducing audit preparation time by **~20%**.
- Integrated data from supplier performance reviews and quality incidents to create a risk scoring system, enabling proactive identification of at-risk suppliers.

Automated Quality Data Analysis Pipeline

- Built a Python-based data pipeline to automate the extraction, transformation, and analysis of quality data from disparate sources, processing approximately **10,000 records weekly**.
- Developed statistical analysis modules using **pandas and NumPy** to identify key quality trends and anomalies, presenting findings via automated reports.
- Created interactive dashboards using **Excel** to visualize supplier performance metrics and quality trends for management review, supporting data-driven decision-making.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
