HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs and microservices for core platform functionality, handling over **5,000 requests per minute** during peak hours.
- Implemented **Hibernate** ORM mappings and optimized **SQL** queries against **PostgreSQL** databases to improve data retrieval efficiency for enterprise reporting modules.
- Authored **JUnit** and **Mockito** tests to ensure code quality and maintainability for new Java features, achieving an average code coverage of **85%** for critical modules.
- Integrated **AI agents** into CI/CD pipelines to automatically investigate failing builds, propose code fixes, and provide actionable evidence to developers, reducing manual triage time by **30%**.
- Enhanced automated pull request reviews by developing scripts that analyze code complexity and dependency cycles, reducing noise for reviewers and flagging potential architectural issues.
- Improved development environments by implementing **Docker** containers for local testing and standardizing build workflows, enabling developers and agents to verify changes reliably.
- Containerized **Java Spring Boot** applications and deployed them to a managed Kubernetes cluster on **AWS EKS**, configuring basic resource limits and health checks for predictable rollouts.

SKILLS

Languages – Java, Python, SQL, JavaScript, TypeScript, R

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, FastAPI, Flask, Node.js, NestJS

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git, CI/CD

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau, RStudio, ML Ops

Methodologies – Agile, Scrum

PROJECTS

AgenticOps Workflow Automation (HCL Technologies)

- Developed **Python scripts** to automate the analysis of CI/CD pipeline failures, identifying root causes and generating initial diagnostic reports for engineering teams.
- Integrated **AI coding assistants** into the development workflow to suggest fixes for common build and test errors, improving developer productivity by approximately **15%**.
- Built a **FastAPI** service to expose findings from automated analysis and AI suggestions, allowing engineers to quickly review and apply recommended changes.

Enterprise Application Observability Enhancement (HCL Technologies)

- Configured and maintained **Splunk** and **Dynatrace** dashboards to monitor the health and performance of critical enterprise applications, focusing on error rates and response times.
- Authored **Python scripts** to parse application logs and extract key metrics, enriching observability data and enabling more granular alerting for P1/P2 incidents.
- Collaborated with operations teams to define and track service level objectives (SLOs) for key application services, ensuring adherence to established SLAs.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
