PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained responsive web applications and mobile applications using **React** and **React Native**, ensuring consistent user experiences across devices.
- Implemented sign-in flows and integrated **single sign-on (SSO)** solutions, enhancing user authentication security and streamlining access.
- Connected frontend applications to backend services and databases via **REST APIs**, facilitating seamless data exchange and application functionality.
- Worked with AI development tools like **Claude** and **ChatGPT** to assist in development tasks, troubleshoot issues, and generate initial documentation drafts.
- Troubleshooted application performance issues, improving **accessibility** and reliability for end-users through systematic debugging and code optimization.
- Managed application deployment processes, working with **domains**, **DNS**, and cloud **hosting** environments to bring applications online.
- Containerized applications using **Docker** and managed deployments on **AWS EC2** instances, ensuring consistent and scalable runtime environments.

SKILLS

Frontend – HTML, CSS, JavaScript, TypeScript, React, React Native, Responsive Design, Usability, UX/UI Design

Backend – APIs, REST APIs, Node.js, NestJS, Python, Java, Spring Boot

Databases – SQL, PostgreSQL, MySQL, Oracle, MongoDB

Infrastructure & Deployment – AWS, EC2, S3, Lambda, CloudWatch, Docker, Kubernetes, Domains, DNS, Hosting, Git, Jenkins

AI & Development Tools – Claude, ChatGPT, Jira, Confluence

Authentication – SSO, OAuth, JWT

PROJECTS

Customer-Facing Mobile App with React Native

- Developed a cross-platform mobile application using **React Native** for a financial services client, focusing on intuitive navigation and a clean user interface.
- Integrated the mobile app with existing backend systems via **REST APIs**, enabling real-time data retrieval and updates for operational dashboards.
- Collaborated with the client's business analysts to gather requirements and conducted UAT sessions, ensuring the application met user needs and performance expectations.

Web Application Deployment and Infrastructure Management

- Configured and managed application **domains** and **DNS** records for a client-facing web application deployed on **AWS**.
- Containerized the web application using **Docker** and set up CI/CD pipelines with **Jenkins** for automated builds and deployments to **EC2** instances.
- Implemented basic application monitoring using **AWS CloudWatch** to track performance metrics and troubleshoot deployment-related issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
