HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot REST APIs** for enterprise financial systems, handling approximately 500 requests per second during peak hours.
- Designed and implemented **Hibernate/JPA data access layers** to manage complex relational data models, optimizing query performance for critical backend services.
- Wrote **JUnit and Mockito tests** to ensure code quality and maintainability for core Java application modules, achieving over 85% unit test coverage.
- Participated in **code reviews and technical design discussions**, providing constructive feedback to junior engineers and contributing to architectural decisions.
- Assisted with **troubleshooting production issues** in a high-availability environment, identifying root causes and implementing fixes to minimize service disruption.
- Contributed to the **documentation of technical designs and operational processes** for new feature development, ensuring clarity for development and support teams.
- Containerized **Java applications using Docker** and managed deployments to **AWS EC2 instances**, ensuring consistent environments across development and production.

SKILLS

Languages – Java, Python, SQL, R, TypeScript

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, React, Angular, Node.js, NestJS

Databases – PostgreSQL, MySQL, Oracle, SQL Server

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git, Bitbucket, Terraform

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, RStudio, FastAPI

Concepts – Object-Oriented Design, REST API Design, Automated Testing, CI/CD, AI-Assisted Development, Software Security, Privacy, Responsible AI

PROJECTS

Enterprise Java Transaction Processing Service

- Engineered a **Java Spring Boot microservice** to process high-volume financial transactions, integrating with a **PostgreSQL** database for persistent storage.
- Implemented robust **Hibernate mappings and query optimisations** to efficiently handle complex transaction data, reducing average query times by **30%**.
- Developed comprehensive **RESTful APIs** for inter-service communication, ensuring secure and efficient data exchange within the financial platform.

Python-based Data Ingestion and Reporting Pipeline

- Built **Python ETL scripts** using **pandas** to extract, transform, and load data from multiple sources into a data warehouse for reporting purposes.
- Automated the generation of **daily operational reports** using Python and SQL, providing key business insights to stakeholders and reducing manual effort by **~15 hours per week**.
- Deployed the data pipeline as a scheduled job on **AWS Lambda**, ensuring reliable and scalable data processing for enterprise analytics.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
