PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **.NET Core** applications, adhering to best practices and incorporating current development technologies for enterprise clients.
- Contributed to the enhancement and maintenance of a **Test Automation framework**, improving application verification processes and reducing regression testing cycles by approximately **18%**.
- Provided support for **database schema** and functionality development, focusing on MS SQLServer environments and ensuring data integrity for critical financial systems.
- Assisted with the design and completion of **report and data extract development**, generating actionable insights for business stakeholders through custom reporting solutions.
- Participated in technical initiatives to migrate existing solutions to **AWS**, gaining experience with cloud deployment strategies and infrastructure management.
- Constructed complex **SQL queries**, including multi-table joins and set operations, to support data analysis and reporting requirements for financial operations.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and ensuring adherence to strict SLAs.

SKILLS

Development – .NET Core, Python, Java, Spring Boot, REST APIs, Docker, Containerization, AWS, Azure, GCP, MS SQLServer, Oracle, MySQL

Testing & Automation – Test Automation Framework, Selenium, Postman, JMeter, Python Scripting

Databases – MS SQLServer, Oracle, MySQL, SQL Queries, Database Schema Development

Cloud & DevOps – AWS, Azure, GCP, Docker, Containerization, Jenkins, Git

Reporting & Analytics – Report Development, Data Extract Development, Power BI, Tableau, DAX

PROJECTS

Financial System Modernization Initiative

- Contributed to the modernization of a core financial system by developing new features in **.NET Core** and enhancing existing application logic.
- Implemented automated tests for critical functionalities using **Selenium**, increasing test coverage and reducing manual testing effort by **30%**.
- Assisted in migrating database components to a cloud-based **MS SQLServer** instance on AWS, ensuring data consistency and performance during the transition.

Enterprise Reporting and Data Extraction Service

- Developed a Python-based service for extracting and transforming data from multiple sources, including **Oracle** and **MySQL** databases, to support business reporting needs.
- Designed and built interactive **Power BI** dashboards to visualize key performance indicators derived from the extracted data, enabling stakeholders to make data-informed decisions.
- Wrote complex **SQL queries** and utilized **Power Query** for ETL processes, handling data aggregation and cleansing for over **500,000** transaction records weekly.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
