HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Architected and deployed **Python**-based infrastructure automation scripts on **AWS Lambda**, reducing manual cloud environment setup time by **40%**.
- Developed **FastAPI** microservices for AI model inference endpoints, handling approximately **1,500 requests per minute** with p95 latency below **200ms**.
- Containerized AI platform services using **Docker** and orchestrated deployments on **Kubernetes (EKS)**, implementing basic resource requests and limits.
- Implemented reusable **Terraform** modules for provisioning secure network infrastructure and compute resources in **Microsoft Azure**, aligning with enterprise standards.
- Automated CI/CD pipelines using **GitHub Actions** for containerized AI applications, enabling automated testing, security scanning, and deployment to staging environments.
- Designed and integrated **REST APIs** for AI services, facilitating seamless data exchange between the platform and downstream enterprise applications.
- Established **GitOps** workflows using **Argo CD** to manage Kubernetes application deployments, ensuring consistent and auditable configuration management across environments.

SKILLS

Cloud & Infrastructure – Microsoft Azure, AWS, GCP, Terraform, Infrastructure as Code

Development & Automation – Python, FastAPI, REST APIs, Git

Containers & Platform Engineering – Docker, Kubernetes, AKS, EKS, GKE, GitOps, Argo CD

CI/CD – GitHub Actions, Jenkins, Azure DevOps

Generative AI & LLMOps – LLMs, RAG, Vector Databases, Embeddings, Retrieval Pipelines, AI Observability

AI Platforms – Azure AI Foundry, Azure OpenAI, AWS Bedrock, Google Vertex AI

PROJECTS

AI Platform Foundation with Terraform and Azure

- Developed a comprehensive suite of **Terraform** modules to provision secure and scalable AI environments on **Microsoft Azure**, including virtual networks, Kubernetes clusters (AKS), and managed databases.
- Integrated **Azure Active Directory** for role-based access control and implemented **security best practices** for all provisioned resources, ensuring compliance with enterprise security policies.
- Automated the deployment of core AI services, such as vector databases and model serving endpoints, using the established Terraform modules, reducing deployment time for new AI initiatives by **35%**.

LLM Inference Service with FastAPI and Docker

- Built a high-performance **FastAPI** application to serve Large Language Models, integrating with **vector databases** for Retrieval-Augmented Generation (RAG) capabilities.
- Containerized the inference service using **Docker** and deployed it to an **EKS** cluster, implementing auto-scaling based on request load.
- Developed comprehensive logging and monitoring for the inference service, tracking request latency, error rates, and token usage for operational insights.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
