HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **REST APIs** using **Java Spring Boot** to facilitate cross-service communication, incorporating request validation and circuit-breaker patterns.
- Developed and maintained **Python ETL scripts** to automate data ingestion and transformation processes for operational reporting, processing approximately **1.5 TB** of data weekly.
- Managed production support for enterprise applications, responding to P1/P2 incidents and ensuring adherence to service level agreements using **Splunk** and **Dynatrace** for monitoring.
- Configured and deployed containerized applications using **Docker** on **AWS EC2** instances, establishing basic CI/CD pipelines with **Jenkins** for automated builds and deployments.
- Built and optimized **SQL queries** across **PostgreSQL** and **MySQL** databases, performing ad-hoc data analysis and supporting schema evolution for business intelligence initiatives.
- Collaborated with cross-functional teams to gather requirements for new feature development and integration services, translating business needs into technical specifications for enterprise AI platforms.
- Implemented **authentication and authorization controls** for AI agent actions, integrating with **Entra ID** and establishing logging and monitoring frameworks for enterprise systems.

SKILLS

Languages – Python, Java, SQL, TypeScript

Frameworks & Libraries – Spring Boot, FastAPI, pandas, NumPy, scikit-learn

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Azure

Integration & API Management – REST APIs, Azure API Management, MuleSoft, SAP BTP

Automation & Orchestration – UiPath, Jenkins, Docker, Kubernetes

Databases – PostgreSQL, MySQL, Oracle, SAP S/4HANA

AI & Agentic Technologies – AI Agents, MCP, A2A architectures, OAuth/OIDC, Entra ID

PROJECTS

Enterprise Integration Service for AI Agents

- Developed a **Java Spring Boot** microservice to act as an integration layer, enabling **AI agents** to securely interact with enterprise systems of record.
- Designed and implemented **RESTful APIs** for agent-to-agent (A2A) communication, ensuring adherence to security standards including **OAuth/OIDC** authentication.
- Integrated with **Microsoft Fabric** for data access and utilized **Docker** for containerization, supporting deployment to a cloud-native environment.

Automated Data Pipeline for Operational Insights

- Engineered a **Python**-based data pipeline to extract, transform, and load data from various sources into a centralized data store, processing approximately **2 TB** of raw data weekly.
- Implemented scheduled reporting using **pandas** and generated operational dashboards, providing key performance indicators to business stakeholders for decision-making.
- Managed the deployment and monitoring of the pipeline on **AWS Lambda**, ensuring reliable data processing with automated error handling and logging via **CloudWatch**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
