PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and executed comprehensive test plans, test cases, and test data for new features and defect resolutions, ensuring alignment with product requirements in a fast-paced Agile setting.
- Authored and maintained automated tests for **web applications**, **REST APIs**, and complex **data-validation workflows**, integrating them into the CI/CD pipeline.
- Executed manual functional, regression, integration, and exploratory testing cycles to validate multi-tiered, **data-driven applications** processing large volumes of records.
- Defined and tracked key quality assurance metrics, including defect counts, severity, test execution status, and overall release quality, providing regular reports to stakeholders.
- Identified, documented, and meticulously tracked software defects through resolution, performing root-cause analysis and collaborating on preventive quality improvements.
- Partnered with customer support teams to reproduce, troubleshoot, and resolve customer-reported issues, ensuring timely and effective solutions.
- Integrated automated test suites within **CI/CD pipelines** using **Jenkins** to support continuous testing, quality gates, and release validation throughout the software delivery lifecycle.

SKILLS

Testing Methodologies – Manual Testing, Functional Testing, Regression Testing, Integration Testing, Exploratory Testing, UAT Testing, Test Strategy, Test Planning, Test Cases, Test Data Management

Automation Tools – Playwright, Selenium, Robot Framework, Postman, REST Assured

Programming Languages – Java, Python, C#

CI/CD & DevOps – GitHub Actions, Jenkins, Azure DevOps, GitLab CI/CD, Continuous Integration, Continuous Delivery, Quality Gates, Release Validation

Databases & APIs – SQL, API Testing, REST APIs, PostgreSQL, MySQL, Oracle

Agile & Tools – Agile, Scrum, JIRA, Zephyr, Azure DevOps

AI Tools – Copilot, Cursor, Gemini, ChatGPT, Claude

PROJECTS

Automated API and Data Validation Framework (HCL Technologies)

- Developed a Python-based framework for **API testing** and **data validation**, integrating with **PostgreSQL** to verify data integrity across enterprise systems.
- Implemented automated test suites using **Python** and **REST Assured**, achieving coverage for critical endpoints and data transformation logic, reducing manual testing effort by 40%.
- Integrated the framework into the **Jenkins** CI/CD pipeline, enabling automated regression testing and quality checks on each deployment.

Web Application Regression Suite with Playwright (HCL Technologies)

- Engineered an automated regression test suite for a core enterprise application using **Playwright** and **Java**, focusing on critical user workflows and UI interactions.
- Designed test cases to cover complex scenarios and data permutations, ensuring comprehensive validation of new features and defect fixes across different browser environments.
- Collaborated with the development team to establish clear defect reporting and verification procedures, leading to faster issue resolution cycles.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
