PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported document management and maintained accurate project records for multiple building consultancy projects, ensuring compliance with company procedures and information security protocols.
- Collected, organised, and recorded relevant project data from site visits and client interactions, contributing to comprehensive project documentation and reporting.
- Assisted in preparing technical documents and recommendations by gathering and synthesising project data, supporting senior colleagues in client deliverables.
- Monitored and recorded project progress and site observations, translating field notes into structured reports for project managers and engineering teams.
- Completed general project-related administrative duties, including scheduling meetings, managing correspondence, and updating project tracking systems.
- Shadowed experienced colleagues during site visits and surveys, gaining practical insights into built environment assessment and data collection methodologies.
- Participated in **Agile/Scrum ceremonies** and contributed to **Jira** ticket management for project tasks, enhancing team collaboration and workflow transparency.

SKILLS

Built Environment – Project Set-up, Coordination, Site Visits, Surveys, Inspections, Technical Documentation, Health and Safety

Project Management – Document Management, Record Keeping, Reporting, Data Collection, Progress Monitoring, Administrative Duties

Communication – Written and Verbal Communication, Meeting Notes, Client Interaction

Tools & Technologies – Jira, Confluence, Microsoft Office Suite (Word, Excel, PowerPoint)

Personal Attributes – Attention to Detail, Enthusiasm for Learning, Proactive Attitude, Commitment to High Standards

PROJECTS

Building Project Data Aggregation System

- Developed a Python script to aggregate and standardise data collected from various site inspection forms, reducing manual data entry time by approximately **40%**.
- Designed a structured data schema in **PostgreSQL** for storing project details, site observations, and client feedback, enabling efficient querying and reporting.
- Created automated reports using **Pandas** to summarise key findings from site visits, facilitating quicker review by project managers.

Client Project Documentation Portal Enhancement

- Contributed to the enhancement of an internal portal for managing project documentation by implementing new organisational tags and search functionalities.
- Assisted in migrating legacy project files to the updated portal structure, ensuring all documents were correctly categorised and accessible.
- Documented the new portal usage guidelines and conducted a brief walkthrough for the project support team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
