HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Performed routine and complex sample preparation and analysis for pharmaceutical compounds in biological matrices using **HPLC** and **Wet Chemistry** techniques.
- Compiled and reviewed analytical results, comparing against **SOP acceptance criteria** and protocol specifications with periodic supervision.
- Collaborated with project leaders to communicate project status and findings for analytical testing assignments.
- Managed time and projects effectively, ensuring accurate and timely completion of assigned tasks in a **GMP** environment.
- Troubleshot extraction and instrumentation issues with **assistance**, contributing to problem resolution for analytical methods.
- Applied knowledge of **ICH guidelines** and GMPs to daily documentation and instrument use within a laboratory setting.
- **Utilised Microsoft Excel and Word** to compile data, generate reports, and perform comparative analysis for various testing procedures.

SKILLS

Analytical Techniques – HPLC, KF, FTIR, Wet Chemistry, Physical Testing

Laboratory Standards – GMP, GLP, ICH Guidelines

Software & Tools – Microsoft Excel, Microsoft Word, Power BI, Tableau, R

Programming & Data Analysis – Python, pandas, NumPy, scikit-learn, SQL

Core Engineering – Java, Spring Boot, REST APIs, AWS, Docker, Linux, Jenkins, Git

PROJECTS

Pharmaceutical Compound Analysis Automation

- Developed Python scripts to automate the extraction and initial analysis of pharmaceutical compound data from raw experimental outputs, reducing manual processing time by approximately 40%.
- Integrated **pandas** and **NumPy** libraries to perform data cleaning and transformation, preparing datasets for further quantitative measurement and comparison against specifications.
- Designed and implemented basic data visualization using **Matplotlib** and **Seaborn** to present key findings from analytical tests, aiding in the review of compound stability.

Laboratory Data Reporting Dashboard

- Created interactive dashboards using **Power BI** to visualize analytical testing results for biopharmaceutical compounds, enabling clearer trend identification for research teams.
- Developed **DAX measures** and performed data modeling within Power BI to aggregate and present complex assay results, facilitating faster review of product specifications.
- Applied **Power Query** to ETL data from various sources, ensuring consistent and accurate data feeds for the reporting dashboard.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
