PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Owned the operational lifecycle of **Edge sites** across EMEA, from deployment handover through decommissioning, coordinating **providers** and **smart hands** for day-to-day support.
- Managed **change management** tasks for Edge sites, ensuring all changes were planned, risk-assessed, approved, communicated, executed, and reviewed in line with established processes.
- Defined and monitored **operational SLAs** with internal stakeholders, driving adherence through performance tracking and remediation of breaches across various service providers.
- Aggregated and escalated **IT operations issues** at Edge sites, driving cross-team follow-up and coordinating on-site work with infrastructure, asset, and quality assurance teams.
- Contributed to the capability build-out of the **IT operations platform** by submitting requirements, supporting testing, and providing on-site feedback to enhance automation and transparency.
- Authored and maintained **Standard Operating Procedures (SOPs)** and updated the risk case library, transforming on-site issues into reusable troubleshooting guides and optimization proposals.
- Executed hardware maintenance tasks in data centre environments, including **racking, cabling, and port mapping** of network devices, and troubleshooting physical connectivity issues.

SKILLS

Operations Management – SLA Management, Change Management, Risk Management, Vendor Management, Quality Assurance, Process Improvement

Infrastructure & Hardware – Data Centre Operations, Edge Sites, Network Hardware, Server Hardware, Racking, Cabling, Optics, Firewalls, Switches, Routers

IT Support & Maintenance – On-site Support, Smart Hands, Provider Coordination, Emergency Response, Troubleshooting, Technical Documentation, SOP Authoring

Networking Fundamentals – Physical Connectivity, Logical Connectivity, Network Diagrams, Port Mapping, Fibre Optics, Copper Cabling

Cloud & Virtualization – AWS (EC2, S3, Lambda, CloudWatch), Docker

Programming & Scripting – Python, Java, SQL, Shell Scripting

PROJECTS

Edge Site Operations Rollout Program

- Managed the operational handover and lifecycle for a portfolio of **new Edge sites**, coordinating with deployment, networking, and security teams to ensure readiness.
- Developed and implemented standardized **SOPs and runbooks** for on-site IT operations, improving consistency and reducing incident resolution times by an average of **18%**.
- Collaborated with third-party **smart hands providers** across multiple EMEA markets, defining service requirements and monitoring performance against agreed SLAs.

IT Infrastructure Monitoring & Automation

- Configured and maintained monitoring tools like **Splunk** and **AWS CloudWatch** for Edge site infrastructure, establishing alerts for critical hardware and network events.
- Automated routine operational tasks using **Python scripting**, including log analysis and status reporting, reducing manual effort for the operations team by approximately **15 hours per week**.
- Supported the integration of **Docker** containers for specific application components within the Edge site environment, ensuring consistent deployment and operation.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
