PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented scalable network infrastructure solutions for **data center** and **Edge/CDN** environments, aligning with global technology standards.
- Collaborated with **cross-functional teams** including compute and storage to integrate network upgrades and drive technological evolution within the infrastructure.
- Managed relationships with **external vendors and ISPs**, overseeing device selection, testing, and verification processes for network hardware procurement.
- Performed hands-on configuration and troubleshooting of **major network devices** from vendors such as Cisco, Arista, and Juniper to ensure optimal performance.
- Developed **Python scripts** to automate network monitoring tasks and analyze telemetry data, improving operational efficiency by approximately **15%**.
- Participated in a global network **oncall rotation**, responding to and resolving critical incidents to maintain high availability of network services.
- Configured and managed **TCP/IP, BGP, and OSPF** protocols across distributed network segments, ensuring reliable data routing and connectivity.

SKILLS

Network Protocols – TCP/IP, DHCP, BGP, OSPF, IS-IS, MPLS, IPv6

Network Monitoring – SNMP, Sflow, Netflow, Telemetry

Data Center Networking – CLOS architecture, Cisco, Arista, Juniper, H3C, Huawei

Cloud Networking – AWS, GCP, Azure, Ali Cloud, OCI

Scripting & Programming – Python, Shell Scripting

Chipsets – Broadcom, Barefoot

PROJECTS

Hyperscale Data Center Network Optimization (HCL Technologies)

- Engineered a new **CLOS network architecture** for a high-traffic data center, improving east-west traffic flow and reducing latency by **20%**.
- Automated network device configuration deployment and validation using **Python scripts** and Jenkins pipelines, reducing manual configuration errors by **40%**.
- Implemented comprehensive **network monitoring** using SNMP and Netflow, providing real-time visibility into traffic patterns and device health for a 500+ node cluster.

Edge Network Deployment and Monitoring (HCL Technologies)

- Deployed and configured network infrastructure for **Edge/CDN** locations, ensuring seamless content delivery and low-latency access for enterprise customers.
- Developed **shell scripts** for log analysis and health checks on Linux-based network appliances, streamlining troubleshooting processes.
- Integrated network telemetry data into a centralized **monitoring system**, enabling proactive identification of potential performance bottlenecks across distributed sites.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
