HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **intuitive, high-performing user interfaces** for machine platforms using **.NET Blazor**, directly contributing to enhanced product usability for operators.
- Collaborated with Product and Project Management teams to define and deliver customer value through iterative software development cycles, ensuring alignment with business objectives.
- Participated in **software architecture discussions**, contributing technical insights to decision-making processes for next-generation sorting solutions.
- Troubleshot and resolved **software defects** across both embedded and PC-based platforms, improving system stability and reducing operational downtime.
- Contributed to the enhancement of **automated testing frameworks** and CI/CD pipelines, aiming to improve software quality and deployment efficiency.
- Participated in **code reviews** and promoted engineering best practices within the development team to ensure maintainability and scalability of solutions.
- Engineered **Java Spring Boot REST APIs** for cross-service data exchange, implementing request validation and circuit-breaker patterns to ensure reliable communication between backend systems.

SKILLS

UI Frameworks – .NET Blazor, WPF, C#

Version Control – Git

Communication & Collaboration – English, Teamwork, Problem-Solving, Attention to Detail

Distributed Systems – gRPC

Software Development Lifecycle – CI/CD, Automated Testing, Code Reviews, Agile Methodologies

Backend Development – Java, Spring Boot, REST APIs

PROJECTS

Machine Control UI Development (HCL Technologies)

- Designed and implemented a **user interface** for a machine control system using **C# and WPF**, focusing on intuitive operator interaction and real-time data visualization.
- Integrated the UI with backend services via **gRPC** to display machine status and receive operational commands, ensuring seamless communication for core functionalities.
- Collaborated with a cross-functional team, including product specialists, to gather requirements and ensure the UI met user needs for control and monitoring tasks.

Automated Production Reporting Tool (HCL Technologies)

- Developed a **Python-based automation tool** to generate daily operational reports from multiple databases, reducing manual reporting effort by approximately **15 hours per week**.
- Implemented data extraction and transformation logic using **pandas** and SQL queries against **PostgreSQL** and **Oracle** databases.
- Integrated the tool into a scheduled job using **cron** on a Linux server, ensuring consistent and timely delivery of reports to stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
