PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Diagnosed and repaired complex surveying and positioning instruments, identifying faulty components and executing component replacements to restore full functionality.
- Performed thorough quality checks on repaired instruments, ensuring adherence to technical specifications and operational readiness before release.
- Maintained accurate repair records and updated technical system documentation for instruments processed through the repair workflow.
- Provided practical technical support to dealers and distributors regarding instrument functionality and common repair procedures.
- Executed structured troubleshooting steps using technical documentation to systematically identify and resolve hardware faults in electronic devices.
- Collaborated with colleagues to share knowledge on repair techniques and common issues encountered with surveying and positioning equipment.
- Managed the lifecycle of repair tickets within an internal tracking system, ensuring timely updates and status changes as work progressed.

SKILLS

Electronics & Repair – Troubleshooting, Component Replacement, Quality Control, Technical Documentation, Assembly, Testing

Tools & Systems – Jira, Confluence, Git, Linux Shell Scripting

Programming & Scripting – Python, Java

Databases & Cloud – SQL (PostgreSQL, MySQL, Oracle), AWS (EC2, S3, Lambda)

Methodologies – Agile, Scrum

PROJECTS

Instrument Repair Workflow Automation

- Developed Python scripts to automate the logging and tracking of instrument repair statuses, reducing manual data entry by an estimated 40%.
- Designed a simple REST API using Flask to allow remote updating of repair ticket information, improving data consistency across the support team.
- Integrated the new scripting solution with existing Jira workflows for defect tracking and resolution, streamlining the overall repair process.

Technical Documentation Enhancement for Surveying Devices

- Contributed to the creation and refinement of technical documentation for surveying and positioning instruments, focusing on clarity for repair technicians.
- Assisted in compiling information on common fault patterns and resolution steps, creating a knowledge base for quicker diagnostics.
- Validated technical procedures by performing hands-on testing of repair steps on representative instrument models.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
