HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed responsive web applications using **Angular**, HTML, and CSS, integrating dynamic data from backend services.
- Built and maintained hybrid mobile applications using **Ionic** and **Capacitor**, ensuring cross-platform compatibility for iOS and Android.
- Integrated **RESTful APIs** to fetch and display data, implementing secure application development practices for sensitive information.
- Optimised application performance by analysing rendering times and API response speeds, improving user experience for core features.
- Contributed to code reviews, providing constructive feedback on code quality and adherence to architectural standards.
- Collaborated with cross-functional teams, including UX/UI designers and backend developers, to refine application requirements and technical specifications.
- Managed mobile application releases, coordinating with QA teams and operations for smooth deployment to production environments.

SKILLS

Frontend – Angular, TypeScript, HTML, CSS, RxJS, NgRx, Signals

Mobile – Ionic, Capacitor, Hybrid Mobile Applications, iOS, Android

Backend Integration – RESTful APIs, API Integration, Secure Application Development

Development Practices – CI/CD, Automated Testing, Code Reviews, Agile Methodologies, Scrum

Tools & Technologies – Git, Jira, Confluence, Docker, Linux

PROJECTS

Enterprise Customer Portal (Angular/Ionic)

- Developed a comprehensive customer portal using **Angular** and **Ionic**, allowing enterprise clients to manage their services and view analytics.
- Integrated multiple **RESTful APIs** to provide real-time data feeds and facilitate user interactions, enhancing data accessibility for clients.
- Implemented state management with **NgRx** to handle complex application states and ensure a consistent user experience across web and mobile interfaces.

Internal Mobile App Development Framework

- Engineered a reusable framework for building hybrid mobile applications using **Ionic** and **Capacitor**, standardising development across multiple internal projects.
- Integrated native device functionalities such as camera and geolocation, providing essential features for field operations teams.
- Optimised build processes and dependency management, reducing average build times for new mobile applications by approximately **30%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
