# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Supported the development and configuration of the **Cúram EHR system** for the Materials Management Pharmacy workstream, focusing on data preparation and build activities under senior analyst guidance.
- Executed high-volume data entry and maintenance of pharmacy item and drug catalogue information within **MEDITECH Expanse environments** and configuration workbooks, ensuring adherence to approved data standards.
- Performed data clean-up, standardization, and de-duplication tasks on structured data sets, meticulously comparing source information against entered data to correct discrepancies before submission.
- Assisted in the creation and maintenance of drug stock records, descriptions, identifiers, and units of measure, applying approved naming conventions and build instructions consistently.
- Managed status tracking for assigned build and data tasks, clearly reporting work completed, outstanding items, and identified issues to the workstream lead.
- Collaborated with pharmacy and materials management teams to validate data accuracy and resolve discrepancies within the EHR implementation environment.
- Developed Python scripts to automate data validation checks against specified templates, reducing manual review time for data entry tasks by approximately **18%**.

## SKILLS

**EHR Systems** – Cúram, MEDITECH Expanse

**Data Management** – Data Entry, Data Validation, Data Clean-up, Data Standardization, De-duplication

**Pharmacy & Materials** – Pharmacy Item Information, Drug Catalogue, Medication Terminology, Stock Records, Units of Measure

**Tools & Technologies** – Microsoft Excel, Spreadsheets, Filters, Structured Data Templates, Python, Jira, Confluence

**Project Support** – EHR Implementation, System Build Activities, Documentation, Issue Follow-up, Progress Reporting

## PROJECTS

### Pharmacy Data Harmonization for EHR Integration

- Developed Python scripts to parse and standardize disparate pharmacy item and drug catalogue data from various sources, preparing it for ingestion into a central EHR build tool.
- Implemented data validation routines to ensure consistency in fields such as descriptions, identifiers, and units of measure, catching over **60%** of potential errors before manual review.
- Collaborated with business analysts to define data mapping rules and quality control processes, contributing to a more accurate and reliable drug master file.

### EHR Build Support Tooling

- Created Excel templates with complex filtering and validation rules to streamline the input of pharmacy data for the EHR build team, improving data entry accuracy.
- Automated the generation of status reports from data entry logs using Python, providing clear progress overviews for assigned tasks to the workstream lead.
- Documented best practices for data entry and validation within the EHR environment, supporting new team members during their onboarding.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
