HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **VBA scripts** for automating tasks within **MS Excel**, including complex formula creation and debugging of existing solutions, resulting in an estimated **15% reduction** in manual data processing time for the operations team.
- Designed and implemented **database schemas** and normalization techniques for **MS Access** applications, creating efficient queries and forms to support data management workflows for enterprise systems.
- Wrote and debugged **Visual Basic for Applications (VBA)** code for both Excel and Access, contributing to the enhancement of current internal tools and the development of new reporting utilities.
- Constructed and optimized **SQL queries** and stored procedures within **SQL Server Management Studio** to extract and manipulate data for reporting and system integration purposes.
- Collaborated with end-users to gather **requirements for technology solutions**, translating business needs into functional specifications for software development projects.
- Troubleshot and resolved technical issues across the **Microsoft Office Suite**, providing timely support to users and documenting solutions for future reference.
- Containerized several **Python-based automation scripts** using **Docker** for consistent deployment across development and production environments on **AWS EC2** instances.

SKILLS

Microsoft Office Suite – Excel, Word, Access, VBA, Pivot Tables, OLE Links

Programming Languages – Visual Basic for Applications (VBA), C#, Visual Basic, Python, SQL

Database Technologies – SQL Server Management Studio, PostgreSQL, MySQL, Oracle

Development Tools – Visual Studio, Git, Jenkins, Jira, Confluence

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Containerization – Docker

PROJECTS

Excel Automation Suite for Financial Reporting

- Developed a comprehensive suite of **Excel VBA scripts** to automate the generation of weekly and monthly financial reports, integrating data from multiple sources via **OLE links**.
- Implemented robust error handling and **documentation within the VBA code**, ensuring ease of maintenance and understanding for the finance operations team.
- Refactored existing complex spreadsheet formulas and created new ones, improving data accuracy and reducing report generation time by approximately **20%**.

Access Database for Enterprise Asset Tracking

- Designed and implemented a normalized **MS Access database** schema to track enterprise assets, including tables for assets, locations, and maintenance logs.
- Developed user-friendly forms and efficient **SQL queries** for data entry, retrieval, and reporting on asset status and maintenance history.
- Integrated the Access database with other internal systems using basic **OLE automation** to facilitate data synchronization.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
