## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Developed and maintained **Power BI reports** and dashboards for commercial finance, creating **12 distinct reports** to track revenue, costs, and profitability.
- Extracted, analysed, and reconciled financial data from **SAP** and other enterprise sources, identifying and resolving discrepancies that impacted budget forecasting accuracy.
- Automated monthly financial reporting processes using advanced **Excel functions** and **SQL queries**, reducing manual effort by approximately **30%** and improving data accuracy.
- Built reports highlighting key performance indicators, trends, and budget variances, supporting the budgeting and forecasting cycles for an **enterprise finance department**.
- Performed rigorous data validation and testing on new and existing reports, documenting findings and collaborating with the finance team to resolve issues before deployment.
- Trained and handed over reporting solutions, including user guides and documentation, to the internal Finance team, ensuring seamless adoption of new tools and processes.
- Managed change-control processes for system configuration updates and coordinated User Acceptance Testing (UAT) for interconnected enterprise systems.

## SKILLS

**Reporting & Analytics** – Power BI, DAX, Power Query, Data Modelling, Tableau, SAP Report Painter, Excel, Large Datasets, Financial Reporting, Commercial Finance Reporting

**Data Analysis & SQL** – SQL, Data Extraction, Data Reconciliation, Data Validation, Database Queries, ETL

**Finance & Business Acumen** – P&L;, Revenue, Costs, Margins, Profitability, Budgeting, Forecasting, Financial Data Analysis, Financial Services

**Software Development & Support** – Java, Spring Boot, REST APIs, Python Scripting, Automation, CI/CD, Jenkins, Git, Jira, Confluence, Linux

**Cloud & Infrastructure** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Containerisation

## PROJECTS

### Commercial Finance Dashboard Suite (HCL Technologies)

- Designed and implemented a suite of **Power BI dashboards** to visualize commercial finance performance, including revenue, cost, and margin analysis for enterprise clients.
- Developed complex **DAX measures** and utilized **Power Query** for ETL to integrate and transform financial data from disparate sources, ensuring data integrity for reporting.
- Collaborated with business analysts to gather requirements and refine report outputs, delivering interactive visualizations that supported strategic decision-making for a financial services client.

### Automated Financial Reconciliation Service (HCL Technologies)

- Engineered a **Python-based service** to automate the reconciliation of financial transaction data between internal systems and external partner feeds, processing approximately **5,000 records daily**.
- Wrote **SQL scripts** to validate data accuracy and identify discrepancies, reducing manual reconciliation effort by an estimated **25%** for the operations team.
- Integrated the service with existing production workflows using **Java Spring Boot**, ensuring reliable data processing within a strict SLA environment.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
