PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Architected and implemented **CI/CD pipelines** for multiple applications using **Jenkins** and **Git**, automating build, test, and deployment processes.
- Integrated **SAST and DAST tooling** into the CI/CD workflow, enabling automated vulnerability scanning and analysis during development cycles.
- Managed and operated **Kubernetes** and **OpenShift** environments, ensuring the stability and scalability of containerized applications.
- Collaborated with product and engineering teams to embed **DevOps and DevSecOps best practices**, driving adoption of modern delivery standards.
- Designed and deployed **ArgoCD** for GitOps-based continuous delivery, streamlining application deployments to Kubernetes clusters.
- Supported product teams in migrating legacy applications towards **microservice architectures**, focusing on containerization and scalable deployment patterns.
- Implemented and monitored **DORA metrics** across engineering delivery processes to identify bottlenecks and drive continuous improvement in deployment frequency and lead time.

SKILLS

CI/CD & Orchestration – Jenkins, Kubernetes, OpenShift, ArgoCD, Docker, Podman, Skopeo

Security Tooling – SAST, DAST, SonarQube, Clair, ZAProxy, HashiCorp Vault

Development Practices – DevOps, DevSecOps, Agile, Microservices, Git

Cloud & Containerization – AWS, EC2, S3, Lambda, CloudWatch, Linux

Data & Analytics – Python, SQL, PostgreSQL, Power BI, Tableau, R

PROJECTS

Automated CI/CD for Microservices

- Developed a comprehensive **CI/CD pipeline** using **Jenkins** and **Docker** to automate the build, testing, and deployment of Java Spring Boot microservices.
- Integrated **SonarQube** for static code analysis and **Clair** for container image vulnerability scanning directly into the pipeline, improving code quality and security posture.
- Configured **Kubernetes** deployments with resource limits and health checks, ensuring reliable operation of services within the cluster.

DevSecOps Integration for Enterprise Applications

- Implemented automated security checks using **HashiCorp Vault** for secret management and **ZAProxy** for dynamic application security testing within a hybrid cloud environment.
- Worked with engineering teams to integrate security scanning tools into their development workflows, reducing the time to identify and remediate vulnerabilities by approximately **30%**.
- Provided guidance on **container security best practices** for applications deployed on **OpenShift**, contributing to a more secure operational baseline.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
