HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and deployed **React** front-end components for a customer-facing dashboard, integrating with backend REST APIs.
- Engineered **Python** backend services and APIs to implement core application logic and data processing workflows.
- Designed and delivered end-to-end product features, spanning user interface development to backend service implementation and data persistence.
- Integrated **Azure OpenAI** and agentic AI solutions to enhance application capabilities, focusing on intelligent automation and user interaction.
- Configured and managed **Microsoft Azure** services, including cloud-native technologies and security features, for scalable application deployment.
- Implemented and maintained **CI/CD pipelines**, adhering to modern Git and DevOps practices for streamlined software delivery.
- Collaborated within an **Agile** environment, working closely with engineering and product teams to define technical estimates and refine sprint backlogs.

SKILLS

Frontend – React, JavaScript, HTML, CSS

Backend – Python, .NET, REST APIs, Application Integration

AI/ML – Azure OpenAI, Azure AI Foundry, Copilot Studio, Agentic AI

Cloud – Microsoft Azure, Cloud-Native Technologies

DevOps – CI/CD, Git, DevOps Practices

Databases – SQL, NoSQL, Cosmos DB

General – Agile, Problem-Solving, Communication, Collaboration

PROJECTS

AI-Powered Customer Interaction Platform

- Developed a **React** frontend for a customer support platform, enabling interactive query handling and personalized responses.
- Integrated **Azure OpenAI** services to power a chatbot feature, processing natural language queries and generating relevant information.
- Implemented backend **Python** APIs to manage user sessions and orchestrate calls to AI models and data persistence layers.

Automated Data Enrichment Service

- Built a **Python** microservice to ingest and process large volumes of data for enrichment using external APIs and internal datasets.
- Designed and implemented RESTful APIs using **Flask** for seamless integration with upstream and downstream systems.
- Deployed the service on **Microsoft Azure** App Service, configuring scaling parameters and monitoring performance metrics.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
