HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Administered and maintained large-scale **Oracle Database** environments, ensuring high availability and reliability for core business operations.
- Implemented and managed **Oracle RAC** (Real Application Clusters) installations, configuring for failover and load balancing across multiple nodes.
- Optimised database performance through rigorous **performance tuning**, query analysis, and strategic **indexing**, reducing average query execution times by **32%**.
- Managed comprehensive **backup and recovery** processes using **RMAN**, establishing robust disaster recovery strategies and conducting regular restore tests.
- Supported database infrastructure on **Linux** operating systems, including shell scripting for automation and log analysis for troubleshooting.
- Collaborated with cross-functional teams to plan and execute **database upgrades** and infrastructure enhancements, minimising downtime and impact on users.
- Implemented **best practices** for production support, including proactive monitoring and establishing clear **SLA** targets for database availability.

SKILLS

Database Technologies – Oracle Database 10g, 11g, Oracle RAC, Oracle Exadata, SQL

Database Administration – Performance Tuning, Data Modelling, Optimisation, Backup and Recovery, RMAN

Operating Systems – Linux

Virtualisation & Networking – Virtualisation Technologies, Networking Technologies

Scripting & Automation – Shell Scripting

Cloud & Open Source – Open-source technology

PROJECTS

Oracle Database Infrastructure Upgrade (HCL Technologies)

- Executed a major **Oracle Database upgrade** from version 10g to 11g across multiple production environments, involving detailed planning and execution.
- Performed extensive **performance tuning** and optimisation post-upgrade, ensuring systems met or exceeded **SLA** requirements for transaction processing.
- Managed **RMAN** backup and recovery configurations for the upgraded databases, verifying data integrity and recovery capabilities.

SQL Server Performance Optimisation Initiative (HCL Technologies)

- Analysed and optimised complex **SQL queries** for a financial-services dashboard, resulting in a **28%** reduction in report generation times.
- Implemented strategic **database indexing** and schema adjustments on **PostgreSQL** and **MySQL** databases to improve query performance.
- Developed **Python scripts** for automated data validation and ETL processes supporting the financial operations dashboard.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
