HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and developed **Apex** classes, **Lightning Web Components**, and **Salesforce APIs** to implement new platform features for customer engagement, reducing manual process time by **30%**.
- Configured and customized **Service Cloud** and **Sales Cloud** modules to align with evolving business requirements, supporting a team of 8 analysts.
- Built integrations using **Java**, **JavaScript**, and **JSON** to connect the Salesforce platform with internal enterprise systems, enabling seamless data flow.
- Automated build and deployment processes by implementing **CI/CD pipelines** using Jenkins and Git, cutting deployment lead time from 2 days to 4 hours.
- Developed a **Python** scripting solution to automate data quality checks and report generation for platform configuration, saving approximately **10 hours** of manual effort per week.
- Monitored platform health using **Splunk** and **Dynatrace**, triaging alerts and resolving P1/P2 incidents to maintain service level agreements for core financial operations.
- Containerised backend services with **Docker** and deployed to an **AWS EKS** cluster, enhancing environment consistency and simplifying operational management.

SKILLS

Salesforce – Apex, Lightning Web Components, Salesforce APIs, Service Cloud, Sales Cloud, Experience Cloud, Data Cloud, Marketing Cloud

Integration & Data – Java, JavaScript, JSON, XML, HTML, CSS, SQL, PostgreSQL, MySQL, Oracle

DevOps & Cloud – CI/CD, Jenkins, Git, Docker, Kubernetes, AWS, EC2, S3, Lambda, CloudWatch, Infrastructure as Code

Scripting & Automation – Python, Shell Scripting

Observability – Splunk, Dynatrace

Methodologies – Agile, Scrum, Change Management

PROJECTS

Salesforce Platform Enhancement for Financial Operations

- Developed custom **Apex** triggers and **Lightning Web Components** to automate complex reconciliation workflows within the financial services dashboard, improving processing accuracy by **15%**.
- Integrated the platform with upstream data sources using **Java Spring Boot** REST APIs and **SQL** queries against PostgreSQL, ensuring timely data ingestion for transaction monitoring.
- Collaborated with business analysts to define requirements for regulatory compliance features, translating them into technical specifications for platform updates.

Automated Deployment Pipeline for Enterprise Applications

- Engineered a **Jenkins**-based **CI/CD pipeline** for Java Spring Boot applications, incorporating automated testing with JUnit and code analysis, reducing manual deployment steps by **80%**.
- Containerised microservices using **Docker** and managed deployments to **AWS EC2** instances, improving consistency across development, staging, and production environments.
- Wrote **Python** scripts for environment configuration management and log aggregation, streamlining the troubleshooting process for production issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
