PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Windows Server 2019/2022** environments, including server builds, configuration, and patching across a farm of 150+ physical and virtual machines.
- Managed **Active Directory** services, including user provisioning/deprovisioning, group policy object (GPO) deployment, and domain health monitoring for over 5,000 user accounts.
- Deployed and maintained **VMware vSphere 7.x** environments, managing virtual machine lifecycles, resource allocation, and host-level configurations to ensure high availability for critical applications.
- Engineered and supported **Disaster Recovery (DR) solutions** using Veeam Backup & Replication, regularly testing restore procedures and ensuring RTO/RPO targets were met for key business systems.
- Administered **Linux (RHEL/Ubuntu) servers** integrated within the Windows infrastructure, focusing on system monitoring, log analysis via **Splunk**, and basic shell scripting for routine tasks.
- Translated business requirements from operations teams into technical infrastructure designs, including detailed plans for new server deployments and upgrades to storage and backup systems.
- Troubleshot complex system faults, diagnosing hardware/software dependencies and resolving vulnerabilities across diverse Windows and Linux integrations to maintain **99.x% availability**.

SKILLS

Operating Systems – Windows Server (2012, 2016, 2019, 2022), Linux (RHEL, Ubuntu)

Virtualisation – VMware vSphere (ESXi, vCenter), Hyper-V

Directory Services – Active Directory, Group Policy (GPO)

Infrastructure Management – Storage (SAN/NAS concepts), Backup & Recovery (Veeam), Disaster Recovery (DR), Monitoring (Splunk, CloudWatch, Dynatrace)

Scripting & Automation – PowerShell, Shell Scripting

Cloud Platforms – AWS (EC2, S3, CloudWatch)

Core Technologies – Windows Clustering, IIS, Network Protocols

PROJECTS

Enterprise Windows Server Infrastructure Upgrade (HCL Technologies)

- Managed the migration of 30+ legacy Windows 2012 servers to **Windows Server 2019**, including in-place upgrades and new builds on **VMware ESXi** hosts.
- Implemented enhanced **Active Directory Group Policies** to enforce security standards and streamline user access controls across multiple departments, reducing misconfigurations by **~40%**.
- Developed automated **PowerShell scripts** to facilitate server build deployments and post-installation configurations, cutting down deployment time by an average of **2 hours per server**.

Business Continuity Planning & DR Testing (HCL Technologies)

- Designed and documented a comprehensive **Disaster Recovery plan** for critical enterprise applications hosted on Windows Server and **Linux** environments.
- Conducted bi-annual DR testing exercises, successfully restoring key services within defined **RTO targets** and validating data integrity post-restore.
- Integrated **Veeam Backup & Replication** with NetApp storage arrays to ensure consistent and reliable backups, covering approximately **50TB of production data**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
