HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and developed **Azure Functions** and **Azure Logic Apps** to process incoming data streams, reducing manual intervention by **40%**.
- Managed **Azure API Management** to expose and secure RESTful services, facilitating integration with 5+ external enterprise platforms.
- Implemented event-driven solutions using **Azure Service Bus** queues and topics to decouple microservices and ensure reliable message delivery, processing approximately **15,000 messages** daily during peak loads.
- Developed and maintained **SQL Server** databases, including writing complex **T-SQL queries** and stored procedures for data retrieval and manipulation, supporting backend services for a large-scale application.
- Contributed to the design and development of **REST APIs** using **C#** and **Microsoft Web API**, ensuring seamless data exchange between front-end applications and backend systems.
- Supported build, release, and deployment processes through the configuration and management of **Azure DevOps pipelines**, automating code integration and deployment for multiple development teams.
- Collaborated with technical and delivery teams to troubleshoot and resolve defects within the software delivery lifecycle, ensuring application stability and performance across development, testing, and production environments.

SKILLS

Azure Services – Azure Functions, Azure Logic Apps, Azure API Management, Azure Service Bus, Azure DevOps, SQL Server, Microsoft Web API

Programming Languages – C#, SQL, T-SQL, Python

Development Methodologies – Agile, Scrum

Databases – SQL Server, PostgreSQL, MySQL, Oracle

Cloud Platforms – AWS, Azure

Tools & Technologies – REST APIs, Git, Jenkins, Docker, Jira, Confluence, Splunk, Dynatrace

PROJECTS

Enterprise Integration Platform (HCL Technologies)

- Developed **Java Spring Boot** microservices to integrate disparate enterprise systems, handling data transformation and orchestration for a financial-services client.
- Implemented robust error handling and retry mechanisms using **JPA** and **PostgreSQL**, ensuring data consistency across interconnected platforms during production incidents.
- Containerised microservices using **Docker** and deployed them to an **AWS EC2** environment, improving deployment speed and resource utilization for the integration layer.

Customer Data Orchestration Service (MSc Project)

- Designed and built a **Python**-based service to ingest and process customer data from multiple sources, enabling downstream analytics and reporting.
- Developed **REST APIs** using **FastAPI** to expose processed data to internal stakeholders, supporting a **15%** improvement in report generation times.
- Integrated with **SQL Server** for data persistence and used **pandas** for efficient data manipulation and validation, ensuring data integrity throughout the pipeline.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
