HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and developed **Java Spring Boot** RESTful APIs and microservices for enterprise applications, handling up to **~4,000 requests per minute**.
- Engineered **Hibernate** persistence layers for complex data models, optimizing **SQL queries** and ensuring data integrity across relational databases.
- Implemented robust **JUnit** and **Mockito** test suites for Java applications, achieving over **85% code coverage** for critical modules.
- Contributed to solution design and technical architecture discussions, estimating effort and identifying technical risks for new feature development within agile sprints.
- Participated in **code reviews**, providing constructive feedback to junior developers and promoting adherence to coding standards and best practices.
- Collaborated with cross-functional agile teams, including business analysts and QA, to define requirements, support UAT, and resolve production defects.
- Containerised Java applications using **Docker** and deployed to **AWS EC2** instances, managing configurations and basic resource allocation.

SKILLS

Backend Development – Java, Spring Boot, Spring Framework, Hibernate, JPA, Microservices, RESTful APIs, JUnit, Mockito

Frontend Development – Angular, TypeScript, JavaScript, HTML5, CSS3

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, CI/CD, Jenkins, Git

Databases – SQL, PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum, Kanban, TDD

Observability – Splunk, Dynatrace

PROJECTS

Enterprise Java Application Modernisation

- Modernised a legacy Java application by refactoring core modules into **Spring Boot microservices**, improving system scalability and maintainability.
- Integrated a new **Hibernate**-based data access layer to support a redesigned relational schema in **PostgreSQL**, enhancing data retrieval performance by **~20%**.
- Developed comprehensive **RESTful APIs** for internal service communication, ensuring clear contracts and robust error handling.

Customer-Facing API Gateway Development

- Built a **Java Spring Boot**-based API gateway to expose backend services to external clients, implementing rate limiting and authentication.
- Designed and consumed **RESTful APIs** from various internal systems, aggregating data for a unified client experience.
- Wrote integration tests using **Spring Test** to validate API responses and ensure seamless interaction with downstream services.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
