PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Administered and supported a large **Microsoft Windows Server** estate (2016/2019/2022), ensuring high availability and performance for core business operations.
- Led infrastructure modernization initiatives, including migrating **on-premises file shares to OneDrive** and **public folders to Exchange Online**, improving collaboration and accessibility for over 500 users.
- Managed and enhanced **Active Directory** environments, including implementing tiering strategies and leading business continuity planning to safeguard critical identity data.
- Resolved complex **Level 2/3 support incidents** across the Microsoft 365 platform, including **Entra ID**, **Exchange Online**, and **Microsoft Teams**, reducing mean time to resolution by 15%.
- Automated routine administration tasks using **Microsoft PowerShell**, developing scripts to manage user onboarding/offboarding and simplify **Group Policy (GPO)** configuration deployment, saving approximately 10 hours of manual effort per week.
- Supported and maintained **Windows imaging solutions** using **Microsoft Deployment Toolkit (MDT)**, streamlining the deployment process for new workstations and reducing setup time by 30%.
- Containerised legacy Java applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and enabling faster rollback capabilities.
