HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Standardised artefact generation across multiple platforms using **Python scripting** and **Jenkins pipelines**, automating build processes for **PC and console releases**.
- Developed and maintained end-to-end release processes, integrating **Perforce source control** and **configuration management** for efficient deployment workflows.
- Optimised source control workflows by implementing **Git branching strategies** and conducting thorough code reviews, reducing merge conflicts by approximately **18%**.
- Managed and assisted microservice development and deployment life cycles, containerising applications with **Docker** for consistent environments.
- Maintained and improved build systems and infrastructure reliability, performing **root cause analysis** on pipeline failures and implementing preventative measures.
- Implemented and enforced basic security best practices across pipelines and infrastructure, including **secrets management** and access control mechanisms.
- Collaborated cross-functionally with engineering, QA, and production teams to troubleshoot and resolve **pipeline and infrastructure issues** efficiently.

SKILLS

DevOps Tools – Perforce, Jenkins, Docker, Kubernetes, Terraform, CloudFormation

Languages – Python, C++, Java, SQL

Cloud Platforms – AWS, Azure, GCP

Automation & Scripting – Shell Scripting, Python Scripting

CI/CD – Pipelines, Source Control, Artefact Generation, Release Management

Infrastructure Management – Configuration Management, Microservices Deployment, Infrastructure Reliability

PROJECTS

Automated Game Build and Release System (HCL Technologies)

- Engineered a CI/CD system using **Jenkins** and **Python** to automate the build and packaging of game artefacts for multiple platforms, reducing manual effort by **40%**.
- Integrated **Perforce** for source control management and implemented automated deployment pipelines to staging environments, ensuring consistent artefact generation.
- Developed shell scripts for environment setup and configuration management on **Linux** servers, streamlining the deployment process for game builds.

Microservice Deployment Pipeline Enhancement (HCL Technologies)

- Containerised backend microservices using **Docker**, creating reproducible build environments for development and production.
- Configured and managed deployment pipelines using **Jenkins**, enabling automated rollouts to **AWS EC2** instances and improving deployment frequency.
- Implemented basic logging and monitoring using **CloudWatch** to track application health and troubleshoot deployment issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
