PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and developed scalable React and Angular components for marketing automation features, integrating with .NET Core backend services.
- Implemented RESTful APIs using **.NET Core** for seamless data exchange between frontend applications and backend systems, supporting over 50 distinct marketing automation workflows.
- Optimized SQL database queries and schema designs in **Azure SQL Database**, reducing average transaction processing time by **18%** for core customer engagement modules.
- Contributed to the design and implementation of event-driven microservices leveraging **Azure Functions**, processing approximately **2,000** marketing event triggers per hour.
- Collaborated within an Agile team to define technical requirements, estimate sprint tasks, and participate in code reviews for new feature development.
- Containerized application services using **Docker** and deployed to Azure App Services, ensuring consistent environments across development and staging.
- Managed application configurations and deployment pipelines using **Git** and Azure DevOps, facilitating streamlined releases with an average of **2** deployments per week.

SKILLS

Frontend – React, Angular, TypeScript, HTML5, CSS3

Backend – .NET, .NET Core, C#, REST APIs, Azure Functions, Azure App Services

Databases – SQL, Azure SQL Database, PostgreSQL

Cloud – Azure, Azure DevOps

DevOps & Tools – Docker, Git, Jenkins, Jira, Confluence

Methodologies – Agile, Scrum

PROJECTS

Marketing Automation Feature Development Platform

- Developed a suite of reusable **React** components for campaign management and lead scoring modules, enhancing user interface consistency across the platform.
- Designed and implemented **.NET Core** APIs to manage customer data synchronization with external marketing platforms, handling over **10,000** customer records daily.
- Wrote unit and integration tests using **JUnit** for backend services, achieving over **85%** code coverage for critical business logic related to marketing campaign execution.

Customer Data Integration Service (Azure)

- Built a data ingestion pipeline using **Azure Functions** and **Python** to process and normalize customer engagement data from various sources into **Azure SQL Database**.
- Implemented data validation and transformation logic to ensure data quality before loading, reducing data entry errors by approximately **22%**.
- Configured **Docker** containers for the service deployment, ensuring portability and ease of management within the Azure cloud environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
