HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and developed **React** and **Angular** components for customer-facing marketing automation features, enhancing user experience and engagement metrics.
- Built and maintained **.NET Core** microservices for core application logic, ensuring robust integration with backend systems and data stores.
- Implemented RESTful APIs using **.NET Core** and Entity Framework, facilitating seamless data exchange between front-end applications and enterprise databases.
- Collaborated with product managers and designers in agile sprints to gather requirements, estimate tasks, and deliver features for the marketing automation platform.
- Optimized application performance and scalability by refactoring SQL queries and implementing efficient data access patterns, reducing API response times by an average of **18%**.
- Integrated **Azure Functions** and **Azure App Services** to build scalable cloud-based solutions, improving application resilience and deployment speed.
- Managed application deployments and configured CI/CD pipelines using **Git** and Jenkins, ensuring consistent and reliable releases across development and production environments.

SKILLS

Frontend Frameworks – React, Angular

Backend Development – .NET, .NET Core, Java Spring Boot, REST APIs, Microservices

Cloud Services – Azure, Azure Functions, Azure App Services, Azure SQL Database, AWS

Databases – SQL, PostgreSQL, MySQL, Oracle

DevOps & Tools – Git, Jenkins, Docker, Linux, Jira, Confluence

Data & Analytics – Power BI, DAX, Power Query, Tableau, R, pandas, scikit-learn

PROJECTS

Marketing Automation Feature Development (HCL Technologies)

- Developed new customer-facing features for a marketing automation platform using **React** and **.NET Core**, focusing on user engagement workflows.
- Integrated with **Azure SQL Database** to manage customer data and campaign metrics, ensuring data integrity and efficient retrieval for reporting.
- Wrote unit tests and performed code reviews to maintain high code quality and ensure adherence to development standards for the core application.

Cloud-Native Application Scalability Initiative (HCL Technologies)

- Engineered backend services using **.NET Core** and **Azure Functions** to handle increased processing loads, supporting an estimated **20%** growth in user activity.
- Implemented asynchronous processing patterns with message queues to decouple services and improve system responsiveness under peak load conditions.
- Containerized application components using **Docker** for consistent deployment across development and cloud environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
