PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided direct customer support via phone and email, addressing inquiries for an enterprise software product and maintaining high standards for user interaction.
- Documented and escalated product bugs and feature requests to engineering teams, translating customer feedback into actionable development tickets within Jira.
- Analyzed trends in customer issues and suggested process and product improvements to internal teams, acting as a customer advocate to enhance user experience.
- Drafted and revised content for external Support Center articles and internal documentation, correcting errors and improving clarity for a user base of 40 million.
- Collaborated with cross-functional teams, including engineers and product managers, to investigate and resolve complex customer issues, facilitating knowledge sharing and problem-solving.
- Contributed to the refinement of support policies and product features by identifying patterns in support requests and communicating insights to relevant departments.
- Managed incoming support tickets within a defined SLA framework, prioritizing urgent issues and ensuring timely resolution for a global user community.

SKILLS

Customer Support – Phone Support, Email Support, Ticketing Systems, Customer Advocacy, Issue Triage

Documentation – Technical Writing, Knowledge Base Management, Internal Documentation, User Guides

Collaboration – Cross-functional Teams, Stakeholder Communication, Teamwork, Information Sharing

Problem Solving – Root Cause Analysis, Analytical Skills, Debugging, Technical Investigation

Tools – Jira, Confluence, Splunk, Dynatrace, AWS CloudWatch

PROJECTS

Customer Support Enhancement Initiative

- Developed a comprehensive knowledge base for common customer inquiries, reducing average response time by 15% for Tier 1 support agents.
- Created standardized response templates for recurring issues, improving consistency and accuracy in customer communications across email and chat platforms.
- Analyzed support ticket data to identify recurring themes and provided actionable feedback to the product team, contributing to a 10% reduction in related bug reports over six months.

Internal Documentation Improvement Project

- Audited and updated existing internal technical documentation for enterprise applications, ensuring accuracy and relevance for production support teams.
- Authored new runbooks for common operational tasks, standardizing procedures and reducing incident resolution time by an average of 20 minutes.
- Implemented a version control system for documentation using Git, enabling better collaboration and tracking of changes among team members.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
