PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Architected and deployed custom **AI agents** within live customer environments, addressing complex enterprise workflows with no established precedent.
- Led technical discovery sessions with senior customer leaders, translating ambiguous business needs into actionable, enterprise-grade **product builds**.
- Provided critical feedback to product and engineering teams on the **developer toolkit**, synthesizing field telemetry to influence the product roadmap.
- Identified and documented best practices from custom fixes, initiating the conversion of field-tested solutions into standardized, **out-of-the-box capabilities**.
- Collaborated with fellow engineers to build and integrate complete agentic systems, pairing custom agents with first-party tools for end-to-end solutions.
- Engineered Python scripting for data pipelines and automation, supporting ETL processes and generating scheduled reports for financial operations.
- Containerized Java Spring Boot services using **Docker** and deployed them to **AWS EC2** instances, managing configurations and dependencies.

SKILLS

AI/ML Engineering – Agent Engineering, AI Agents, Agentic Apps, Developer Platform, Agent Harness, Agent Runtime, Agentic Tools, ADKs, Agent Frameworks, MCP, A2A

Programming Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn, Hibernate, JPA

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – Jira, Confluence, Agile, Scrum, REST APIs, Data Warehousing, Business Intelligence

PROJECTS

Enterprise AI Agent Deployment Framework

- Developed a Python-based framework to streamline the deployment of custom AI agents into diverse enterprise environments, integrating with existing client systems via **REST APIs**.
- Designed and implemented agent architecture patterns for secure data access and processing, reducing average deployment time for new agent functionalities by **~30%**.
- Collaborated with business analysts to gather requirements and validate agent performance against defined business outcomes for an internal financial operations dashboard.

Customer-Facing Analytics Dashboard (MSc Project)

- Built interactive **Power BI dashboards** to visualize key performance indicators derived from a large dataset, enabling stakeholders to identify trends and make data-informed decisions.
- Developed **DAX measures** and complex data models in Power BI to support analytical queries and reporting requirements, enhancing data interpretability for non-technical users.
- Applied **Power Query** for ETL processes, cleaning and transforming raw data from multiple sources into a structured format suitable for dashboard consumption.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
