HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, designing **RESTful APIs** to handle core business logic for enterprise applications.
- Implemented persistence layers using **Hibernate** and **JPA**, managing entity relationships and optimizing **SQL** queries against **PostgreSQL** databases to ensure data integrity.
- Engineered **JUnit** and **Mockito** test suites for critical Java components, increasing code coverage by **30%** and reducing post-deployment regressions.
- Participated in **code reviews** and **design discussions** within an **Agile/Scrum** team, contributing to architectural decisions and technical estimations for new features.
- Collaborated with **DevOps** and **QA** teams to ensure seamless integration and deployment of backend services, adhering to strict **CI/CD** practices.
- Deployed and managed **Java** applications on **AWS** using **EC2** instances and **S3** for storage, ensuring high availability and scalability.
- Containerised backend applications using **Docker** and managed their deployment configurations, preparing for potential orchestration with **Kubernetes**.

SKILLS

Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Spring Framework, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle, NoSQL

Tools & Technologies – Docker, Kubernetes, Git, Jenkins, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Architecture & Methodologies – Microservices, REST APIs, Agile, Scrum, CI/CD

PROJECTS

Enterprise Java Microservice Development with JPA

- Designed and built a suite of **Java Spring Boot** microservices to manage customer account data, exposing **RESTful APIs** for internal consumption.
- Integrated the microservices with a **PostgreSQL** database using **JPA** and **Hibernate**, defining complex entity mappings and optimizing data access patterns.
- Developed comprehensive unit and integration tests using **JUnit** and **Mockito**, achieving over **90%** code coverage for critical service logic.

Cloud-Native Java Application Deployment

- Containerised a **Java** backend application using **Docker**, creating optimized images for efficient deployment and local development.
- Configured and deployed the containerised application to **AWS EC2** instances, managing application lifecycle and monitoring performance via **CloudWatch**.
- Established a basic **CI/CD** pipeline using **Jenkins** to automate the build, test, and deployment process for the Java application.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
