HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented relational and dimensional data models using **SQL** and **PostgreSQL** to support client reporting requirements on an enterprise platform.
- Developed and maintained computed attributes and complex queries in **Python** and **SQL**, ensuring data accuracy and availability for real-time analytics use cases.
- Built automated reporting solutions and **Power BI** dashboards that enabled marketing teams to monitor campaign performance with minimal manual intervention.
- Collaborated with the Data Integration Lead to integrate new data sources into existing models, ensuring data shape alignment and quality for downstream consumption.
- Implemented data governance practices, including maintaining data lineage documentation and adhering to data quality standards for all managed models.
- Worked with business stakeholders to gather requirements for data models and reporting needs, translating technical insights into actionable business understanding.
- Containerised data processing and reporting services using **Docker** and deployed them to **AWS EC2** instances for scalable and reliable execution.

SKILLS

Data Modelling – Relational Modelling, Dimensional Modelling, Schema Design, Data Warehousing

Programming – Python, SQL

Databases – PostgreSQL, MySQL, Oracle, ClickHouse, SQL Server

BI & Reporting – Power BI, Metabase, DAX, Power Query

Cloud – AWS (EC2, S3, Lambda, CloudWatch)

Tools & Methodologies – Docker, Git, Jenkins, Jira, Agile, Scrum, Data Governance, Data Lineage

PROJECTS

Customer Engagement Data Model Enhancement

- Designed and implemented a new dimensional data model in **PostgreSQL** to support enhanced customer segmentation for marketing campaigns.
- Developed **Python** scripts to automate ETL processes for ingesting customer interaction data from multiple sources into the data warehouse.
- Created interactive **Power BI** dashboards visualizing customer journey metrics and campaign effectiveness for business stakeholders.

Automated Marketing Reporting Framework

- Built a scalable reporting framework using **SQL** and **Python** to automate the generation of weekly performance reports for enterprise clients.
- Optimised complex SQL queries and database schema for performance, reducing report generation time by **30%**.
- Collaborated with the client's marketing operations team to define key metrics and ensure reporting accuracy, facilitating data-driven decision-making.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
