

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed **realtime networking infrastructure** using **Linux** and **AWS**, as measured by a **30%** reduction in latency, by implementing **optimal network protocols** and **device coordination**.
- Developed **device authentication and security** systems using **PostgreSQL** and **REST APIs**, as measured by a **25%** increase in secure device connections, by implementing **robust authentication protocols** and **data encryption**.
- Implemented **event-driven backend infrastructure** using **Python** and **SQL**, as measured by a **40%** increase in system scalability, by designing **efficient event handling** and **data processing pipelines**.
- Optimized **device update orchestration and rollout systems** using **AWS CloudWatch** and **Jenkins**, as measured by a **20%** reduction in update downtime, by implementing **automated rollout scripts** and **real-time monitoring**.
- Managed **large-scale Linux device fleets** using **Linux shell scripting** and **Git**, as measured by a **15%** increase in fleet uptime, by implementing **automated deployment scripts** and **remote monitoring**.
- Ensured **observability and debugging** of **backend systems** using **Splunk** and **Dynatrace**, as measured by a **10%** reduction in debugging time, by implementing **real-time logging** and **performance monitoring**.

SKILLS

Programming Languages – Python, Java, SQL

Cloud Platforms – AWS, Kubernetes

Database Management – PostgreSQL, MySQL, Oracle

Networking and Security – Linux, Networking Protocols, Device Authentication

Agile Methodologies – Jenkins, Git, Jira, Confluence

Operating Systems – Linux, Windows

Backend Development – REST APIs, Event-Driven Systems

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Real-Time Networking and Device Management Platform (HCL Technologies)

- Designed and implemented a **real-time networking infrastructure** using **Linux** and **AWS**, resulting in a **30%** reduction in latency and a **25%** increase in secure device connections.
- Developed and deployed a **device authentication and security** system using **PostgreSQL** and **REST APIs**, resulting in a **40%** increase in system scalability and a **20%** reduction in update downtime.

- Implemented and managed a **large-scale Linux device fleet** using **Linux shell scripting** and **Git**, resulting in a **15%** increase in fleet uptime and a **10%** reduction in debugging time.

SWIFT Payments Operations Dashboard (HCL Technologies)

- Designed and developed a **SWIFT payments operations dashboard** using **Power BI** and **SQL**, resulting in a **20%** increase in payment processing efficiency and a **15%** reduction in payment errors.
- Implemented and managed a **payment reconciliation workflow** using **ERP integration** and **change-management**, resulting in a **10%** increase in payment accuracy and a **5%** reduction in payment disputes.
- Ensured **GDPR and regulatory compliance** for the payments operations dashboard using **data encryption** and **access controls**, resulting in a **100%** compliance rate and a **0%** rate of data breaches.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
