

# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Designed and deployed **AI-driven automation workflows using Python and Claude (Anthropic)**, building prompt engineering pipelines that reduced manual processing time by **45%** across operational tasks.
- Developed and optimised high-quality **prompts for Claude LLM**, structuring inputs, context windows, and output formats to maximise response quality for content generation, data processing, and business automation use cases.
- Built **REST API integrations connecting AI models with internal tools and third-party platforms** using Python (FastAPI, Flask), enabling scalable end-to-end AI workflow deployment across business functions.
- Applied **Python scripting (pandas, SQLAlchemy, FastAPI)** to automate ETL pipelines, scheduled reporting, and data validation tasks — reducing manual operational effort by **40%** and improving data reliability.
- Collaborated cross-functionally with product, operations, and data teams to **identify automation opportunities**, translate business requirements into AI-powered solutions, and measure performance impact through iterative improvement.
- Deployed and monitored AI services on **AWS (EC2, Lambda, S3)** with Docker containerisation; managed CI/CD pipelines using Jenkins and Git, maintaining service reliability and enabling rapid iteration on AI workflow improvements.

## SKILLS

**AI & LLM** – Claude (Anthropic), prompt engineering & optimisation, LLM workflow design, RAG patterns, OpenAI API, Hugging Face.

**Workflow Automation** – Python automation, REST API integration, webhook pipelines, Zapier-compatible architecture, event-driven processing.

**Programming Languages** – Python (advanced), JavaScript, SQL, Bash scripting.

**Data & Analytics** – pandas, NumPy, PostgreSQL, MySQL, ETL pipelines, data cleaning and transformation.

**Cloud & Infrastructure** – AWS (EC2, Lambda, S3, CloudWatch), Docker, Jenkins, CI/CD pipelines.

**Development Practices** – Agile/Scrum, Git, API design, testing, technical documentation, cross-team collaboration.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin**

**02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College  
of Technology, Coimbatore, India**

**01/2021**

## PROJECTS

**AI Workflow Automation System (HCL Technologies)**

- Designed and deployed Claude-powered automation workflows for document classification and content generation, reducing manual processing effort by **40%** for operations teams.
- Built prompt engineering templates optimised for Claude, structuring system context, few-shot examples, and output schemas to deliver consistent, high-quality responses across diverse business use cases.
- Integrated the AI pipeline with internal REST APIs and AWS Lambda for serverless execution, enabling scalable on-demand AI processing without additional infrastructure overhead.

#### **Python Automation & Data Pipeline Development (HCL Technologies)**

- Built Python-based ETL pipelines using pandas and SQLAlchemy to automate data extraction, transformation, and loading from multiple sources into PostgreSQL, reducing manual effort by **45%**.
- Developed FastAPI REST endpoints exposing processed data to downstream teams, with structured logging, input validation, and error handling ensuring reliable and observable service behaviour.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
