

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained production-ready Java Spring Boot REST APIs for core business functions, ensuring seamless integration with enterprise systems.
- Engineered complex SQL queries and managed schema alterations across PostgreSQL and Oracle databases to support data validation and reporting requirements.
- Automated critical ETL processes and scheduled data reporting tasks using Python scripting, reducing manual effort by an estimated **40%** for the operations team.
- Collaborated with cross-functional teams to gather requirements, implement features, and resolve production incidents for enterprise applications, adhering to strict SLAs.
- Designed and implemented **transaction monitoring workflows** and operational alerting for a financial-services dashboard, improving detection of failed payments by **~20%**.
- Containerized Java applications using **Docker** and deployed them to AWS EC2 instances, establishing a more reliable and scalable deployment pipeline.
- Managed change-control processes for system configurations and coordinated User Acceptance Testing (UAT) for enterprise business systems, ensuring smooth go-live transitions.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

DevOps & CI/CD – Docker, Jenkins, Git

Tools & Technologies – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau, DAX, Power Query

PROJECTS

Enterprise Payments Operations Dashboard

- Developed Java Spring Boot microservices to process and monitor inbound financial transaction messages, feeding data into an operational dashboard.
- Implemented **real-time alerting** for failed or stalled transactions, enabling operations teams to quickly identify and resolve issues, reducing average resolution time by **15%**.
- Authored comprehensive production runbooks and incident response guides that improved team's ability to triage and address critical alerts.

Automated ERP Data Reconciliation Service

- Created Python ETL scripts to extract, transform, and load data between disparate ERP modules and a central data warehouse for reconciliation purposes.
- Designed and implemented SQL procedures to validate data integrity and flag discrepancies between source and target systems, catching approximately **18%** more anomalies than previous manual checks.
- Scheduled and monitored Python data pipelines using cron jobs on Linux servers, ensuring timely completion of daily reconciliation reports.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
