

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed **Java Spring Boot** REST APIs for internal microservices, handling approximately **1,500 requests per minute** and supporting cross-team data exchange.
- Managed production incidents for enterprise applications, performing root cause analysis and coordinating resolution within **P1/P2 SLA targets** using **Splunk** and **Dynatrace**.
- Automated data extraction and transformation processes using **Python** scripts, reducing manual reporting effort for operational teams by an estimated **15 hours per week**.
- Designed and implemented **JPA** entities and queries for a financial-services dashboard, ensuring data integrity across **PostgreSQL** and **Oracle** databases.
- Containerized backend services using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and reducing setup time for new environments.
- Collaborated with business analysts and operations teams to gather requirements, support User Acceptance Testing (UAT), and triage issues for a payments processing dashboard.
- Executed change-control procedures for system configuration updates, coordinating UAT and providing post-go-live support for enterprise business systems.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, JPA, Hibernate, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Data Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Linux, Splunk, Dynatrace

PROJECTS

Financial Operations Dashboard Enhancement

- Developed new features for a **payments operations dashboard**, including real-time transaction monitoring and enhanced alerting for failed payment messages, processing approximately **50,000 transactions daily**.
- Wrote **Python** scripts to automate the generation of daily operational summary reports, integrating data from multiple SQL databases and reducing manual compilation time by **80%**.
- Implemented robust error handling and logging mechanisms using **Java Spring Boot**, improving system stability and aiding in faster incident triage for critical payment flows.

ERP System Integration for Reporting

- Designed and implemented **SQL** queries and stored procedures to extract and aggregate data from an ERP system for business intelligence reporting, supporting an analytics team of **4 members**.
- Built interactive **Power BI** dashboards to visualize key performance indicators derived from ERP data, enabling business stakeholders to track operational efficiency and identify bottlenecks.
- Collaborated with ERP functional consultants to understand data schemas and map relevant fields for reporting purposes, ensuring data accuracy and consistency across systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
