

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** applications, implementing **REST APIs** for data exchange between microservices and supporting ~3,500 daily transactions.
- Engineered **Python scripts** to automate ETL processes for batch reporting, reducing manual data compilation effort by approximately **15 hours per week**.
- Managed production incidents for enterprise applications using **Splunk** and **Dynatrace**, resolving P1/P2 issues within defined SLA targets.
- Wrote and optimized **SQL queries** across PostgreSQL and Oracle databases for data validation and ad-hoc reporting, ensuring data integrity for financial operations.
- Containerized backend services using **Docker**, enabling consistent deployment across development and production environments on **AWS EC2**.
- Collaborated within an **Agile/Scrum** framework, participating in sprint planning, daily stand-ups, and code reviews to ensure timely feature delivery.
- Implemented database schema changes and performed data migration tasks for enterprise business systems, coordinating with business analysts and operations teams.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Databases – PostgreSQL, MySQL, Oracle

BI/Analytics Tools – Power BI, Tableau, DAX, Power Query

Monitoring/Observability – Splunk, Dynatrace

Methodologies – Agile, Scrum

PROJECTS

Financial Operations Dashboard Enhancement (HCL Technologies)

- Developed new Java Spring Boot microservices to ingest and process transaction data for a financial-services operations dashboard, improving real-time monitoring capabilities.
- Automated the generation of daily reconciliation reports using Python scripts and SQL queries against PostgreSQL, reducing manual intervention by **70%**.
- Implemented production monitoring and alerting mechanisms using Splunk, identifying and resolving an average of **5 critical alerts** per week.

ERP System Integration Automation (HCL Technologies)

- Created Python scripts to automate data extraction and loading between an ERP system and a downstream operational platform via REST APIs.
- Designed and implemented database-level data flows across Oracle and MySQL to synchronize master data for enterprise business systems.
- Supported change management processes for system configuration updates, coordinating UAT and post-go-live triage for integrated platforms.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
