

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot applications**, implementing new features and resolving defects in production environments.
- Engineered **Python scripts** for data extraction, transformation, and loading (ETL) processes, automating report generation and data pipeline tasks.
- Managed and optimized **SQL databases** (PostgreSQL, Oracle, MySQL) through ad-hoc queries, data validation, and schema modifications to support business operations.
- Supported enterprise business systems, including **ERP modules**, facilitating cross-system integrations via REST APIs and database-level data flows.
- Participated in **Agile/Scrum ceremonies**, including sprint planning and daily stand-ups, contributing to defect tracking and resolution within Jira.
- Performed production support and monitoring for enterprise applications using **Splunk and Dynatrace**, managing SLAs and responding to P1/P2 incidents.
- Containerized applications using **Docker** and deployed them to **AWS EC2 instances**, managing basic configurations and ensuring service availability.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn, Hibernate, JPA

Databases – PostgreSQL, MySQL, Oracle

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Methodologies – Agile, Scrum

PROJECTS

Enterprise Payments Operations Dashboard Enhancement

- Contributed to the development of a **payments operations dashboard** for a financial-services client, focusing on transaction monitoring and alerting for failed payment messages.
- Implemented **Java Spring Boot** components to parse and process inbound transaction data, ensuring adherence to strict production environment SLAs and audit trail requirements.
- Collaborated with business analysts to refine requirements for operational dashboards, supporting user acceptance testing and post-implementation triage of system issues.

Automated Financial Reporting Pipeline

- Developed a **Python ETL pipeline** to aggregate data from multiple enterprise systems, including ERP modules and operational platforms, for scheduled financial reporting.
- Designed and implemented **SQL queries** to extract and validate data from PostgreSQL and Oracle databases, ensuring data integrity for downstream reporting processes.
- Automated the generation and distribution of daily performance reports using Python scripting, reducing manual effort by an estimated **15 hours per week**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
