

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Optimized **machine learning models** using **Python** and **scikit-learn**, as measured by **25%** increase in prediction accuracy, by implementing **ensemble methods** and **hyperparameter tuning**.
- Developed **data visualizations** using **Power BI** and **DAX**, as measured by **30%** reduction in report generation time, by designing **interactive dashboards** and **data storytelling**.
- Improved **data quality** using **SQL** and **data warehousing**, as measured by **20%** decrease in data inconsistencies, by implementing **data validation** and **data cleansing**.
- Enhanced **predictive analytics** using **R** and **statistical modeling**, as measured by **15%** increase in forecast accuracy, by applying **regression analysis** and **time-series forecasting**.
- Streamlined **data pipelines** using **Python** and **pandas**, as measured by **40%** reduction in data processing time, by optimizing **data ingestion** and **data transformation**.
- Designed **business intelligence solutions** using **Tableau** and **data visualization**, as measured by **25%** increase in user adoption, by creating **interactive dashboards** and **data insights**.

SKILLS

Programming Languages – Python, Java, R, SQL.

Data Science Tools – scikit-learn, pandas, NumPy, Tableau, Power BI.

Machine Learning – supervised learning, unsupervised learning, deep learning.

Data Visualization – data storytelling, interactive dashboards, data insights.

Database Management – SQL, data warehousing, data validation, data cleansing.

Operating Systems – Linux, Windows.

Cloud Platforms – AWS, Azure.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

AI-Powered Predictive Analytics Platform (HCL Technologies)

- Developed a **predictive analytics platform** using **Python** and **scikit-learn**, as measured by **20%** increase in forecast accuracy, by implementing **machine learning models** and **hyperparameter tuning**.
- Designed a **data visualization dashboard** using **Power BI** and **DAX**, as measured by **30%** reduction in report generation time, by creating **interactive dashboards** and **data storytelling**.

- Improved **data quality** using **SQL** and **data warehousing**, as measured by **15%** decrease in data inconsistencies, by implementing **data validation** and **data cleansing**.

Real-Time Fraud Detection System (Personal Project)

- Developed a **real-time fraud detection system** using **Python** and **machine learning**, as measured by **25%** increase in detection accuracy, by implementing **anomaly detection** and **predictive modeling**.
- Designed a **data pipeline** using **Python** and **pandas**, as measured by **40%** reduction in data processing time, by optimizing **data ingestion** and **data transformation**.
- Improved **system performance** using **Linux** and **cloud platforms**, as measured by **30%** increase in system throughput, by implementing **cloud-based infrastructure** and **load balancing**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
