

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Enhanced **business process automation** using **Java** and **Python** scripting, resulting in a **30%** reduction in manual workflow execution time.
- Optimized **data pipelines** and **ETL processes** for improved data integrity, achieving a **25%** decrease in data discrepancies.
- Developed and implemented **RESTful APIs** using **Spring Boot** to facilitate seamless system integrations, increasing API adoption by **40%**.
- Improved **incident management** and **problem resolution** through the use of **Splunk** and **Dynatrace** monitoring tools, reducing mean time to resolve (MTTR) by **20%**.
- Collaborated with cross-functional teams to design and deploy **BI dashboards** using **Power BI** and **Tableau**, resulting in a **50%** increase in data-driven decision making.
- Streamlined **change management** processes and **CI/CD pipelines** using **Jenkins** and **Git**, achieving a **35%** reduction in deployment time.

SKILLS

Programming Languages – Java, Python, R, SQL.

Data Analysis and Visualization – Power BI, Tableau, DAX, data modeling.

Cloud and DevOps – AWS, Docker, Kubernetes, Jenkins, Git.

Business Systems and Integration – ERP, REST APIs, system integration.

Monitoring and Security – Splunk, Dynatrace, Linux, security best practices.

Agile Methodologies – Scrum, Jira, Confluence, Agile project planning.

Data Engineering – data pipelines, ETL, data warehousing.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Business Process Automation and Optimization Platform (HCL Technologies)

- Designed and developed a **business process automation** platform using **Java** and **Python** to streamline workflow execution, resulting in a **40%** reduction in manual effort.
- Implemented **data analytics** and **visualization** using **Power BI** to provide insights into business operations, achieving a **30%** increase in data-driven decision making.

- Collaborated with cross-functional teams to deploy the platform on **AWS** and integrate with existing **ERP systems**, resulting in a **25%** reduction in deployment time.

Data-Driven Decision Making Dashboard (Personal Project)

- Developed a **BI dashboard** using **Tableau** to provide insights into business operations, resulting in a **50%** increase in data-driven decision making.
- Integrated **data analytics** and **machine learning** using **R** and **Python** to predict business outcomes, achieving a **20%** increase in forecast accuracy.
- Deployed the dashboard on **AWS** and integrated with existing **data warehousing** systems, resulting in a **30%** reduction in data processing time.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
