

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Designed **data visualizations** using **Power BI** and **Tableau** to achieve a **30%** increase in report adoption, as measured by **user engagement metrics**, by implementing **interactive dashboards** and **data storytelling**.
- Developed **predictive models** using **R** and **Python** to forecast **business outcomes**, as measured by **mean absolute error**, by applying **machine learning algorithms** and **statistical techniques**.
- Improved **data pipeline efficiency** by **25%**, as measured by **processing time**, by optimizing **ETL workflows** and **data warehousing** using **SQL** and **AWS**.
- Enhanced **data quality** by **20%**, as measured by **data validation metrics**, by designing and implementing **data validation rules** and **data cleansing processes** using **Python** and **pandas**.
- Created **data models** using **DAX** and **Power Query** to support **business decision-making**, as measured by **stakeholder feedback**, by developing **data visualizations** and **reports**.
- Implemented **data governance** policies and procedures to ensure **GDPR compliance**, as measured by **audit trails**, by collaborating with **stakeholders** and **regulatory teams**.

SKILLS

Programming Languages – Python, R, Java, SQL

Data Visualization Tools – Power BI, Tableau, D3.js

Machine Learning Frameworks – scikit-learn, TensorFlow, PyTorch

Cloud Platforms – AWS, Azure, Google Cloud

Data Management – Data Warehousing, ETL, Data Governance

Statistical Techniques – Regression, Hypothesis Testing, Time Series Analysis

Operating Systems – Linux, Windows

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Data Analytics Platform for Business Insights (HCL Technologies)

- Designed and developed a **data analytics platform** using **Power BI** and **Tableau** to support **business decision-making**, resulting in a **25% increase** in report adoption.
- Developed and implemented **predictive models** using **R** and **Python** to forecast **business outcomes**, achieving a **15% improvement** in forecast accuracy.

- Collaborated with **stakeholders** and **regulatory teams** to ensure **GDPR compliance** and implement **data governance** policies and procedures.

SWIFT Message Processing and Reconciliation (HCL Technologies)

- Developed and implemented a **SWIFT message processing** system using **Java** and **Spring Boot** to support **payment processing** and **reconciliation**.
- Designed and implemented **data validation rules** and **data cleansing processes** using **Python** and **pandas** to ensure **data quality** and **accuracy**.
- Collaborated with **banking-domain BAs** and **operations teams** to ensure **compliance** with **regulatory requirements** and **industry standards**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
