PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed end-to-end production incident response for enterprise applications, achieving **99.5% SLA compliance** through structured triage, P1/P2 escalation, and cross-team war-room coordination.
- Developed **Python and Shell automation scripts** for routine operational tasks including log analysis, health checks, and automated restarts, reducing manual intervention by **60%**.
- Monitored distributed application infrastructure using **Splunk, CloudWatch, and Dynatrace**, identifying and resolving performance degradations before SLA breach.
- Performed **root cause analysis (RCA)** for major production incidents, documenting findings and implementing preventive fixes to reduce recurring incident rates by **45%**.
- Executed **database maintenance operations** in Oracle, PostgreSQL, and MySQL including schema migrations, performance tuning, and data fix scripts in production environments.
- Collaborated with development, QA, and infrastructure teams during **change and release management** cycles, ensuring smooth deployments with zero unplanned downtime.
- Built and maintained **operational dashboards in Grafana** consolidating application health, error rates, and SLA metrics, enabling proactive issue detection and reporting.
- Provided **Tier 2/3 technical support** to global stakeholders, managing tickets through ServiceNow and Jira and maintaining MTTR within SLA thresholds.

SKILLS

Monitoring & Observability – Splunk, CloudWatch, Dynatrace, Grafana, PagerDuty, Prometheus.

Scripting & Automation – Python, Shell scripting, cron jobs, automated health checks.

Databases – Oracle, PostgreSQL, MySQL; schema migrations, performance tuning, data fix scripts.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, RDS, CloudWatch), Docker, Linux administration.

ITSM & Processes – ServiceNow, Jira; ITIL-aligned incident, change, and problem management.

Development – Java, Spring Boot, REST APIs; application debugging and log analysis.

Development Practices – Agile/Scrum, SLA management, RCA documentation, runbook authoring.

PROJECTS

Production Incident Automation & SLA Management (HCL Technologies)

- Designed and deployed Python-based health-check and auto-recovery scripts reducing manual incident resolution effort by 60%, maintaining 99.5% SLA compliance across 15+ enterprise services.
- Built a Splunk alerting framework with custom dashboards tracking error rate trends, queue depths, and service latency, enabling proactive detection of degradation before customer impact.

AWS Infrastructure Monitoring & Reliability (HCL Technologies)

- Configured CloudWatch alarms and dashboards across EC2, RDS, and application tiers, enabling proactive detection of resource contention and service degradation.
- Supported on-call incident rotation, contributing to structured war-room coordination during major outages and driving resolution through systematic root cause analysis.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
