HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed full-stack web applications using **Java Spring Boot** (REST API backend) and **React/Angular** (frontend), delivering responsive interfaces and robust data flows for enterprise users.
- Designed and maintained RESTful APIs integrating backend services with third-party platforms, improving cross-system data exchange reliability and reducing integration errors by **30%**.
- Built reusable frontend components and implemented state management patterns, improving UI consistency and reducing development time across features by **25%**.
- Worked with **PostgreSQL and MongoDB** to design efficient schemas, optimise queries, and improve data retrieval speed by 40% for high-traffic transactional workloads.
- Implemented **JWT-based authentication and role-based access control (RBAC)** across full-stack features, ensuring secure data access at both API and UI layers.
- Collaborated with UX designers, product owners, and QA engineers in **Agile/Scrum** sprints to deliver end-to-end features with high quality and on schedule.
- Deployed applications on **AWS (EC2, S3)** with Docker containerisation; maintained Jenkins CI/CD pipelines, reducing deployment lead time by **35%**.
- Wrote unit and end-to-end tests using **JUnit, Mockito, and Jest**, achieving 80%+ code coverage and maintaining stable releases across frontend and backend layers.

SKILLS

Backend – Java 11/17, Spring Boot, Spring Cloud, REST APIs, Microservices, Spring Security.

Frontend – React, Angular, JavaScript (ES6+), HTML5, CSS3, TypeScript.

Databases – PostgreSQL, MySQL, MongoDB; query optimisation and data modelling.

Cloud & DevOps – AWS (EC2, S3, Lambda), Docker, Kubernetes, Jenkins, CI/CD pipelines.

Testing – JUnit, Mockito, Jest, React Testing Library, TDD practices.

Development Practices – Agile/Scrum, Git, code reviews, API design patterns.

Tools & IDEs – IntelliJ IDEA, VS Code, Postman, Jira, Confluence.

PROJECTS

Customer Portal – Full Stack Application (HCL Technologies)

- Developed a full-stack customer portal using Spring Boot (REST APIs) and Angular (frontend) supporting profile management, transaction history, and real-time notification features for 10,000+ users.
- Implemented JWT authentication and role-based access control ensuring secure, auditable access to sensitive account data across all portal features.
- Deployed the application on AWS EC2 with Docker containerisation; maintained CI/CD pipeline with Jenkins, automating build and deployment to staging and production.

Internal Admin Dashboard (HCL Technologies)

- Built a responsive admin dashboard with React and Spring Boot providing real-time data views via REST APIs, reducing operational reporting time by 40% for internal teams.
- Designed reusable component library and state management patterns, improving UI consistency and reducing frontend development effort for new modules.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
