PROFESSIONAL EXPERIENCE — 3.5+ YEARS

Trust & Safety Agent — Accenture, Dublin, Ireland Jul 2026 – Present

- Review and action high volumes of user-generated content and account reports against detailed **community standards** and **policy guidelines**, consistently meeting daily quality and productivity targets.
- Investigate escalated cases involving harassment, hate speech, scams, and inauthentic behaviour, documenting each **enforcement decision** with clear rationale for audit and calibration.
- Identify emerging **abuse patterns** and policy gaps during queue reviews and flag trends to team leads and policy specialists to refine enforcement guidelines.
- Maintain high accuracy across **quality audits** and calibration sessions while handling sensitive and graphic content with resilience, sound judgement, and strict confidentiality.

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Built and maintained **Java Spring Boot** services and **REST APIs** for banking and payments platforms, including transaction validation rules that flagged anomalous and suspicious activity.
- Wrote **SQL** queries against Oracle and MySQL to investigate data issues and audit transaction records for accuracy and compliance.
- Translated business rules into tested, maintainable code with QA and business stakeholders in Agile sprints.
- Owned **incident management** for high-availability banking platforms, triaging and resolving P1/P2 incidents within strict **SLAs**.
- Managed incident, problem, and change tickets in **ServiceNow**, escalating to the right resolver groups and documenting root cause for every case.
- Monitored production health with **Splunk** and **Dynatrace**, spotting abnormal transaction patterns early and giving stakeholders clear, timely status updates.
- Wrote runbooks and knowledge-base articles that standardised responses to recurring issues and cut onboarding time for new analysts.

SKILLS

Trust & Safety – Content moderation, policy enforcement, community standards, escalation handling, abuse and fraud pattern detection.

Risk & Investigation – Case investigation, root-cause analysis, quality audits, calibration, decision documentation.

Data & Reporting – SQL, Python, Excel, Power BI, trend analysis.

Operations – Incident management, SLA adherence, ServiceNow, Splunk, Dynatrace, runbooks.

Technical – Java, Spring Boot, REST APIs, Oracle, MySQL.

Core Strengths – Resilience with sensitive content, attention to detail, clear written communication, confidentiality.

PROJECTS

Online Fraud & Abuse Pattern Analysis (MSc Data Analytics)

- Analysed a labelled dataset of user transactions and reviews in **Python** (pandas) and **SQL** to surface behavioural signals of fraud and abusive activity.
- Built a **Power BI** dashboard tracking flagged-case volumes, abuse categories, and trend shifts over time for reviewer prioritisation.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
